

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

AMERICAN ALMANAC J. B. Machanty

Treasury of Facts,

STATISTICAL, FINANCIAL, AND POLITICAL,

AINSWORTH R. SPOFFORD.

NEW YORK AND WASHINGTON . THE AMERICAN NEWS COMPANY. 1884

AY64 A766

SEVENTH ANNUAL PUBLICATION.

COPYRIGHT, 1883, BY AINSWORTH R. SPOFFORD.

THE AMERICAN ALMANAC AND TREASURY OF FACTS, Is published in two editions:

- 1. Popular Edition, handsome paper cover. Price 25 cents.
- Library Edition, with 100 additional pages; elegantly bound in full scarlet cloth. Price, \$1.50.

Copies of the former issues, 1878, 1879, 1881, 1882, and 1883, may be had, bound, at \$1.50 each.

The American Almanac for 1880 is out of print.

FIXED AND MOVABLE FESTIVALS.

CHRONOLOGICAL CYCLES, ETC.

Dominical Letters	Jewish Era 5644-5 Mohammedan Era 1301-2 Byzantine Era 7392-3
-------------------	--

The Solar Cycle embraces a period of 28 years.

The Roman Indiction is a cycle of 15 years

The Lunar Cycle is 235 synodical revolutions of the moon-19 years.

The Epact denotes the age of the moon on the first day of January.

ECLIPSES IN THE YEAR 1884.

In this year there will be five eclipses, three of the Sun and two of the Moon.

1. A partial eclipse of the Sun, March 27. Invisible in America.

2. A total eclipse of the Moon, April 10. Partly visible at Washington, Charleston, Chicago, and St. Louis, when the Moon sets in the morning: visible in the most of North America, the Pacific Ocean, and Asia.

VISIBLE AT	BEGINS.	MIDDLE.	END.

- 3. A partial eclipse of the Sun, April 25. Invisible in the United States.
- 4. A total eclipse of the Moon, October 4. Partly visible at Washington, and visible in Europe, Asia and Africa.
- At Washington, Moon enters shadow 3h. 6m. P. M. Total eclipse begins 4h. 7m. Middle of the eclipse 4.53. Total eclipse ends 5.40; Moon leaves shadow 6.40 P. M. Chicago and St. Louis, invisible.
 - 5. A partial eclipse of the Sun, October 18. Invisible in the United States.

MORNING STARS. ...

VENUS from July 11 to December 31.
JUPITER from August 7 to December 31
SATURN from June 3 to September 15.

EVENING STARS

VENUS from January 1 to July 11.

MARS from January 1 to December 31.

JUPITER from January 1 to August 7.

SATURN from January 1 to June 3; and from September 15 to December 31.

PERPETUAL CALENDAR,

For finding the day of the week on which any day of any month falls, (or the day of the month of any given day of the week) in any year before or after Christ, Old Style or New.

Compiled by Joseph P. Bradley .- Copyright.

EXAMPLE 1.—To find the day of the week for July 4th, 1881. Opposite Century 19, New Style, and over year 81, is Saturday. Under July, Saturday falls in the vertical line under 2, and the second day to the right following, under 4, is Monday, July 4th.

EXAMPLE 2.—To find the day of the week on which Columbus discovered America, October 12th, 1492, Old Style. Opposite Century 15, Old Style, and over 92 in black letter (it being leap year.) is Monday. Therefore, October 8th was Monday; and the line of week-days in which Monday falls under October (which is the sixth.) with the days of the month above, constitute the entire Calendar for October, 1492, Old Style, and the 12th, as seen, falls on Friday. 12th, as seen, falls on Friday.

EXAMPLE 3.—To find the 1st Tuesday after the 1st Monday in November, (Election Day,) 1882. Find 82 in "Years of the Century;" follow up the column to the day on a line with the figure 19 of the "Centuries, New Style:" this will be found to be Sunday. Under November, Sunday is found in the vertical line under 5, of the calendar above, Monday to the right of it under 6, and Tuesday under 7. So the Tuesday after the first Monday, is the 7th.

THE TIME OF HIGH WATER

nt the places following may be found approximately for each day by adding to ar subtracting from the time of high water at New York the hours and minutes annexed.

[Corrected at the office of the United States Coast and Geodetical Survey.]

EXAMPLE.—To ascertain at what hour it will be high tide at Baltimore on the 1st of August, find the time of high water at New York under August 1st, which is 4.24 A.M., then add 10 hours 52 minutes, as found in the table of Tide Constants under Baltimore, and we have 3.16 P.M. as the hour of high water at Bal-

timore August 1st, 1880.

Note.—The hours of high water in the calendar pages are the morning hours from midnight to noon—throughout the year, as computed for the U. S. Coast Survey. To find the time of next high water, or the afternoon tide—from noon to midnight—add 12 h. 25 m. in each day. The result will be the proximate hour of evening tide. For low water, add 6 h. 12 m., approximately, to the time of high water.

Explanation of the Calendar.

Explanation of the Calendar.

The two natural divisions of time are the day, of 24 hours, representing one revolution of the earth on its axis, and the year, 365 days, approximately representing one revolution of the earth around the sun. The month representing one revolution of the earth around the sun. The month represents (nearly) the period of the moon's revolution round the earth (about 29½ days), while the week is approximately one-fourth of this.

By the Julian Calendar, established by Julius Cæsar, 46 B.C., the months were reconstructed; the Roman year, which began March 1, and had but ten months being changed to Jan 1, and two months added. Thirty-one days were given to the 1st, 3d, bth, 7th, 8th, 10th, and 12th months, and 30 days each to the rest, except February, which on every fourth year received an intercalary day, made by the sexto Calendae Martius, whence "leap year" came to be called Bissextile. As the Julian year had 365½ days, its length exceeded the true solar year by 11m, 14 sec., so that the equinox in the course of centuries fell back several days. To correct this error, Pope Gregory XIII. in 1582 reformed the calendar by suppressing ten days, restoring the equinox to March 21. The Gregorian Calendar also made every year which is divisible by four without a remainder a leap year, except the centesimal years, which are only leap years when the first two figures are divisible by four: thus 1600 was a leap year, 1700, 1800, and 1900 common years, 2000 a leap year, etc. The length of the mean year is 856 d. 5th. 49m, 12sec., exceeding the true solar year nearly 26 sec., which error amounts only to 1 day in 3.325 years.

The Gregorian Calendar was adopted by Germany in 1700, and by English law in 1752, when the Julian Calendar, or old style, gave place to the new style, by dropping eleven days from the month of September, 1752.

The Gregorian Calendar was adopted by Germany in 1700, and by English law in 1752, when the Julian Calendar, or old style, gave place to the new style, by dropping el

To find the time of high tide at fifty places in the United States, see page 5.

JANUARY is so named from the Roman Janus, who was the porter of heaven, having the surname of Patulcus, the opener. He presided over the beginning or opening of everything, hence the first month of the year was called after him, when the Roman year was altered by Numa Pompilius (in the 7th century B. C.,) from ten months beginning in March, to twelve months by adding January and February. In his original character Janus was the god of the sun, and worshipped as such by the Etruscans and the Romans. The temple of Janus (which was really a covered passage or gate at Rome) was left open in war as a symbol that the god had gone out to assist the Roman arms, while it was continually shut in time of peace.

On New Year's day, which was the festival of the god Janus, the Romans gave presents to one another. Thus ancient was the origin of the modern custom of New Year's presents and first of January festivities,

To find the time of high tide at fifty places in the United States, see page 5.

FEREVARY, according to some, derives its name from the Latin februare, signifying to explate or purify, as the Romans had a custom of general lustrations and purifications in the latter part of that month. More generally, February is traced to the Roman divinity, Februaus, afterward identified with the god Pluto, of the lower world. Still another origin is found in the goddess Februa, supposed to be the same as Juno; and Dr. Foster says: "The evident relation between the Februata Juno and the Purificata Virg. Maria is one of the most striking instances of the connection between Pagan and Christian rites and festivities as to the period of their occurrence."

The festival of the dead (Feralia) was celebrated by the Romans in the month of February.

The month of March was named from Mars, (Lat. Martius,) the Roman god of war. This divinity was known as Father Mars, and next to Jupiter, he enjoyed the highest honors at Rome, of which city Jupiter, Mars and Quirinus were the three tutelary divinities. March was the first month in the early Roman calendar, and the legal year began with March 25 even in England, until the change from Old Style to New Style in 1752. (See Explanation of the calendar, p. 5.) The custom of reckoning the year according to the old style is still retained in Russia, and even the financial year of Great Britain is reckoned from the 31st of March. In historical works, dates are frequently written thus, Feb. $\frac{1}{2}$ 1732, the upper figures representing old style reckoning, and the lower, new style.

We also see dates between Jan. 1 and March 25 expressed thus, Jan. 30, $161\frac{1}{9}$, meaning the year was legally 1648, (O. S.) but by modern reckoning, 1649, (N. S.)

APRIL (Lat. Aprilis) derived perhaps from Aperire, to open, because spring and the buds generally open in this month. Another derivation has been found in the dedication of this month by the Romans to Venus, goddess of buds and beauty, whose name in Greek was Aphrodite, whence Aphrilis or Aprilis. This is more fanciful than the first-named derivation, but the word-mongers are never daunted by difficulty, any more than by distance, in their ctymologies.

In the French revolutionary calendar, April included most of their new season of Germinal, and the beginning of Floreal.

On the ancient monuments, Aprilis appears as a dancing youth with a rattle in his hand, thus symbolizing the gay and jocund spirit of spring.

All Fool's Day (April 1) is traced through every country of Europe to the Hindoos, and even farther back, to the mistake of Noah in sending the dove out of the ark before the water had abated, on the Hebrew first day of the month.

MAY (Lat. Maius) was consecrated to Apollo among the Romans, and is probably derived from Maia, a feminine divinity worshipped at Rome, to whom sacrifices were offered on the first of May. Some philologists, however, hold that Maius is a contraction of Magius, derived from the Sanskrit root mag or mah, to grow.

The custom of observing May-day, or the first of May, with floral and festive ceremonies, is older than the Middle Ages, and is probably the lineal descendant of the Roman *Floralia*, or festivals in honor of *Flora*, celebrated from April 23 to May 2.

In England the custom of going out a-Maying is mentioned in Chaucer and Shake-speare. Before sunrise young people went to the groves to gather flowers and branches of foliage to adorn the village May-pole, around which the dancing was kept up. A queen of the May, the most beautiful girl in the village, was elected for crowning.

To find the time of high tide at fifty places in the United States, see page 5.

June, the month of roses, has been commonly traced to Juno, worshipped at Rome as the queen of heaven. The connection is found in the fact that the month of June (said to have been called originally Junonius) was considered the most favorable period for marrying; and Juno was the great protector of the feminine sex, and believed especially to preside over marriage. Another origin is found by some in the Latin Juniores, the young men, to whom Romulus is said to have assigned it; and still another in jungo, to join (as in marriage).

The Anglo-Saxous called June "midsummer month."

In the northern United States June is the most delightful month of the year, when the flowers put on their richest bloom, and the birds warble their most musical songs, while the earth, the air and the water teem with vigorous life, and the hours of the day far outnumber those of the night.

JULY. This month derives its name from Julius Casar, who was born on the 12th of the month, originally called Quintilis, it having been the fifth month in the original Latin year, which began with March. The change of name was proposed by Mark Antony, and easily carried in the days of the great Julius.

This is the month of "Dog-days," usually reckoned as beginning on the 8d of July and ending about the 1ith of August. These days were so called from the star Sirius, or the dog star, in the constellation of *Uanis Mojor*, to which the extreme heat of midsummer was superstitiously attributed. During these oppressively hot days it was also supposed that dogs are more likely to run mad than at other seasons.

August, like July, ewes its name to the Roman Cæsars, the Emperor Augustus having followed in the footsteps of his illustrious predecessor by appropriating a month to himself. Formerly called Sextilis, or the sixth month, when Julius Cæsar changed the calendar it still continued Sextilis and had thirty days, while February had twentynine, and in leap-year thirty days. To gratify the vanity of Augustus, one day was taken by the obsequious Senate from February and added to August, so as to make his month equal in extent and dignity to July.

August is associated, at least in this country, with intense heat and welcome vacations; schools and colleges shut up, the cities pour themselves into the country, and seaside and mountain resorts are throughd.

SEPTEMBER is so called from the Latin septem, seven, because it was the seventh month of the Roman year, which began with March, until the change of the calendar under the second King of Rome. Though September became then the ninth month, and October, November, and December, the 10th, 11th and 12th, respectively, instead of the 8th, 9th and 10th, the ancient designations are still retained, in spite of their total inaccuracy; an instance of conservatism enduring through ages, and still perpetuated.

September is the month of harvest through large areas of the globe, and in Switzerland it is still called *Herbstmonat* (harvest month).

Harvest moon is the full moon nearest the autumnal equinox (Sept. 21), so called because it enables farmers to prolong the day's work during the autumnal harvest. In England and northern Europe the harvest moon rises near sunset several evenings successively; but this phenomenon is less marked in the United States because of our lower latitude. The recurrence of what was called an equinoctial storm at or about the time the sun crosses the equator, has ceased to be (if in fact it ever was) a thing to be depended on.

OCTOBER (Lat. octo, eight), was the eighth month of the Roman calendar, before its reformation. This has given rise to the following quatrain:

"October has its name from octo, eight;

Though 'tis the truth, perhaps 'tis well to state.

Such sixes and such sevens the months were knocked to,

That ten became translated into coto."

The splendor of October in the country, when the air is crisp and full of electric energy, and the green forests change to the gorgeous and many-colored hues of autumn, has been celebrated by many writers.

NOVEMBER (Lat. novem, nine) is now the eleventh month, instead of the ninth, as before the change of the Roman calendar.

Though frequently cold and blustering, November is redeemed almost every year, throughout a large region of the United States, by the delightful weather known as Indian Summer, when for days or weeks the sun pours its rays mildly through a haze, and the soft and genial air invites us abroad to enjoy, as it were, a second edition of summer before winter closes in.

November is also notable in the northern parts of the United States for its time-honored festival of Thanksgiving, which originated with the Pilgrim Fathers at Plymouth. Formerly celebrated on different Thursdays, as fixed by proclamation by the various State governors, Thanksgiving has now come to be generally observed on the last Thursday in November, as announced by Presidential proclamation.

To find the time of high tide at fifty places in the United States, see page 5.

DECEMBER (Lat. decem, ten), the tenth month of the early Romans, has become the twelfth, rounding out the year.

This is the month of the longest nights and the shortest days, as the winter solstice falls on the 21st of December.

When the French revolutionized the calendar in 1792, and gave the months new and significant names. December was cut in two, the first part of it becoming *Frimaire* frosty) and the last. Nirose (snowy).

As the month of the Christmas holidays, which continue, where fully celebrated, from December 24 to January 2, or even longer, December's cold and gloom are enlivened with the joyousness, generosity and charity of the greatest festival in the calendar.

ALPHABET OF SOME NOTABLE EVENTS AND DISCOVERIES.

Alaska ceded by Russia to the United States. . 1867, June 20.

Algerine war declared by United States, 1815, March 3. Alien and Sedition Acts passed by Congress,

¹⁾ This gives colored troops enlisted in the States in rebellion; besides this, there were 92.576 colored troops, included (with the white soldiers) in the quotas of the several States; the 3d column gives the aggregate of colored, but many enlisted South were credited to Northern States.

2) This is the aggregate of troops furnished for all periods of service—from 3 months to 3 years time. Reduced to a uniform three years standard, the whole number of troops enlisted amounted to 2,320,272.

3) Virginia and West Virginia populations by census of 1860, as divided by counties 1863.

4) This table is given from the Report of the Provost Marshal General in 1866, with the remark that much barear dishusements to hountee were made in some States. The aggregate net carefulphile

much larger disbursements in bounties were made in some States, the aggregate not ascertainable.

Number of Troops from each of the old Thirteen States, enlisted during the Revolutionary War, 1775-1783, including Continental Soldiers and Militia.

Compiled and condensed from the Report of the Secretary of War, May 10, 1790. American State Papers, Military Affairs, vol. 1, p. 14 to 19.

Norm.—As the farce by railway are commandy varying, and time-tables vary widely by different trains, the mell time and passenger farm above given are to be taken as approximately correct.

From the Financial Review, 1877, with Additions.

FOR the purpose of showing the total amount of exports and imports of merchandise and the total of specie in each year since 1856, the table below has been compiled. In the columns headed "Excess" are given the differences between exports and imports each year, showing at a glance the "trade balance" of the country.

Gold Value of Imports and Exports of Merchandise and Specie into and from the United States in each Fiscal Year since 1856.

YEAR.		MERCHAND	ise.		SPECIE.

IMMIGRATION INTO THE UNITED STATES, 1820-1883.

PRIOR to the year 1820, no statistics of immigration were officially kept. By the Act of Congress, of March 2nd, 1819, Collectors of Customs were required to keep a record and make a quarterly return to the Treasury, of all passengers arriving in their respective districts from foreign ports; and these reports, published from time to time by the Treasury Department, constitute the sources of information as to the progress of immigration. The total number of foreign-born passengers arriving at the ports of the United States, from 1820 to 1892 inclusive, its given below. Prior to 1856, the figures show the whole number of aliens arriving, but from 1856 to 1892 inclusive, the number of immigration only i.e. of foreign passengers activing in the United States.

immigrants only, i. e., of foreign passengers settling in the United States.

It has been estimated that the whole number of aliens coming to the United States

from 1789 to 1820, was about 250,000.

It is believed that the table given above will fairly represent the question of profit and loss in the cultivation of tobacco in 1879 in the various states of the Union. It will be observed that Tennessee stands lowest in the column which indicates profit. This is due to the peculiar condition of the tobacco markets the time the census was taken. Stocks of tobacco had accumulated, until prices coincided very nearly with the cost of production. All other states growing tobacco for exportation produced also some types peculiarly satisfied to the requirements of the domestic manufacturer, which brought good prices and elevated the general average of prices for such states. The profitsin growing tobacco in Kentucky came from the production of the White Burley and yellow wrapper; in Illinois, from the production of the seed-leat; in Missouri, from the production of sweet fillers and White Burley; and in Virginia from the production of yellow wrappers, bright "smokers," and sun, sir, and flue-cured fillers. In consequence of the low scale of prices for shipping-leaf, and the margin for profit being reduced to such a low point, Tennessee, Missourf, Illinois, Indiana, Maryland, and other states growing tobacco mainly for exportation, show relatively a diminished production. On the other hand, all those states which have grown types suitable for domestic consumption, have generally ascended rapidly in the rank of production, a Penneylvania, which wast welfth in rank in 1870, takes the third rank in 1880. Ohio passes from the fifth and fifth, and Missouri passes from the seventh to the ninh rank.

Manyiand and Tennessee descend from the fill and that Tank respectively to the seventh to the finit rank.

Profits in the culture of tobacco have been in direct proportion, first to its suitableness to domestic communities; and, secondly, to the amount of fertilization practiced by the growers in its cultivation. Ninety-four per cent. of all the product grown for market in 1879, north of the parallel of 39° 44′, was changed as seed-leaf tobacco; and eighty-four per cent. of the whole product of that class was grown north of the same line. The amount of seed-leaf grown in the United States reached nearly twenty per cent. of the endre product.

Railway Accidents in the United States.

The following statistics of accidents on railways for 10 years past (compiled by the Railroad Gazette, N. Y.) are a record of accidents to trains only, not of all railway accidents. The larger number killed or injured on railways are those crossing or walting on the tracks, or falling from trains in motion, and without any accident to trains themselves. But these latter are not reported.

^{*}Other estimates make the coal fields of the United States, reckoning the Permian and tertiary coals, to embrace an area of over 600,000 square miles. But all estimates of their extent are as yet conjectural, and a very large portion of their actual area contains no workable coal.

Statement showing the Mileage of Lines and Wires, Number of Offices and Traffic of the WESTERN UNION TELEGRAPH COMPANY for each year, from June 30, 1866, to June 30, 1883.

From the Journal of the Telegraph, October 2, 1883;

Year.	Miles of line	Miles of wire.	No. of offi- ces.		Receipts.	Expenses.	Profits.	Aver- age tolls per mes- sage.	Aver- age cost per mes- sage.	Average profit per mes-

_	, ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,									

The greatly increased mileage since 1880 is principally due to the fact, that in 1881, the Western Union Telegraph Company absorbed by purchase all the lines of the American Union, and the Atlantic and Pacific Telegraph Company, the former having previously in operation over 12,000 miles of line, and the latter 8,706 miles. Capital stock of the Western Union, \$80,000,000.

The Western Union has exclusive contracts with the International Cable Companies.

operating 8 Atlantic Cables, and guarantees 5 per cent. annual dividends on the stock of the American Cable Company. Amount, \$14,000,000.

THE DOMINION TELEGRAPH COMPANY, operating almost wholly in Cauada, had 5,000 miles of line in 1881, owned and operated by the Western Union Telegraph Company, not included in above mileage.)

Besides the above, there are many new lines of Telegraph, which have complied with the United States Telegraph Act of 1866, and are operating wires with or without connection with Railway Companies.

THE MUTUAL UNION TELEGRAPH COMPANY, of the United States, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and is extending its lines

North and South, operating aiready from Boston to Chicago, St. Louis, Washington, etc. Approximate number of annual messages, 7,350,000. Capital stock \$10,000,000. THE BALTIMORE AND OHIO RAILBOAD TELEGRAPH, has lines co-extensive with its railway system and branches, constituting in 1882, over 2,800 miles of line. THE AMERICAN RAPID TELEGRAPH COMPANY, New York to Boston, Philadelphia, Baltimore, Washington, Buffalo, etc., has over 800 miles of line, 2,000 miles of wire, and 60 Capital stock \$4,000,000.

THE BANKERS' AND MERCHANTS' TELEGRAPH COMPANY, New York, organized March 23, 1881, has about 280 miles of line (New York to Washington) 2,000 miles of wire, and is

In operation to Philadelphia. Capital authorized \$1,000,000, of which \$300,000 is issued.

THE POSTAL TELEGRAPH COMPANY, of New York, organized June 21, 1881, has about 1,000 miles of line under operation, from New York to Chicago, etc., and owns what are claimed to be very valuable patents in improved wires and telegraphy. Authorized capital stock, \$21,000,000.

The aggregate mileage of Telegraph Lines in the United States open for public business, exceeds 1 4,000 miles, besides Railway, Government, private and telephonic lines, length ot ascertainable.

TELEPHONES.

THE AMERICAN BELL TELEPHONE COMPANY, (Boston,) had in use by its licensees, January 1, 1883, about 245,000 Telephones, and 700 Telephone Exchanges in various Cities of the United States. The aggregate length of Telephone wires operated by these, was about 69.000 miles. Capital stock, \$5,930,000.

The aggregate number of Telephones in use in all the cities of the country, including those of competing companies, is much greater than the above.

The extent in mileage of telegraph wires put up for Telephone use in the United States, is estimated at 100,000 miles.

The number of communications by Telephone has been roughly estimated at about 120,000,000 per annum in the Exchanges of the United States.

THE BELL TELEPHONE COMPANY, of Canada, has in operation 4,250 telephones, in about 100 cities or towns of the Dominion,

NOTE.—In a few of the Territories, a marked change is observable in the number of Illiterates as compared with the number reported in 1870. With the exception of New Mexico, where the proportion of Illiterates has been considerably decreased by the establishment of common schools, this result is due to changes in the population, and chiefly to the withdrawal of Chinese laborers.

Public School Statistics of the United States in 1882.

Compiled from reports in the Office of the Commissioner of Education Nov. 86, 1883. Subject to change for the forthcoming Report of the Commissioner for 1882.

The Climates of the United States.

We give below a table prepared by selection from the voluminous records of the recent work on American temperature, showing the mean annual temperature of the atmosphere at a given point in each of the forty-nine States and Territories of the Union. The place is selected as either the capital or some leading city or town where observations have been most continuously kept:

State or Territory.	Place of observation.	Mean annual temper- ature.	State or Territory.	Place of cheervation.	Mont ennt temps stars

^{1.} Conscripts.

Note.—These statistics are not in most cases based upon a census of illiterary, which few nations have provided for in systematic form. They are to be regard in rather as an attempt to approximate the proportions ignorant of the arts of reading and writing, from such data as exist concerning soldiers, the signing of marriage registers, etc., than as exact statistics of illiteracy

^{2.} Criminals.

Number of Electoral Votes to which each State has been entitled at each Presidential Election, 1789-1884.

Total number of acres disposed of for the fiscal year...... 19,430,032,80

Moneys received during the fiscal year.....\$11,718,883.07

OUR PUBLIC LAND SYSTEM.

THE public lands of the United States which are still undisposed of and open to settlement lie in nineteen States and eight Territories. In each case, except Ohio, Indiana, Illinois, the Indian Territory and Alaska, land offices are established, in charge of an officer known as Register of the Land Office, where the records of all surveyed lands are kept, and all applications concerning lands in each district are filed and inquiries answered. The public lands are divided into two great classes. The one class have a dollar and a quarter an acre designated as the minimum price and the other two dollars and a half an acre, the latter being the alternate sections, reserved by the United States in land grants to railroads, etc. Titles to these lands may be acquired by private entry or location under the homestead, preemption and timber-culture laws; or, as to some classes, by purchase for cash, in the case of lands which may be purchased at private sale, or such as have not been reserved under any law. Such tracts are sold on application to the Land Register, who issues a certificate of purchase, the receiver giving a receipt for the money paid, subject to the issue of a patent, or complete title, if the proceedings are found regular, by the Commissioner of the General Land Office, at Washington.

Entries under land warrants (given mostly for military services under acts of Con-

gress), have fallen off very largely by the absorption of such warrants, there having be n no military bounty land warrants provided for on account of services in the late war.

Entries under the preemption law are restricted to heads of families, or citizens over

twenty-one, who may settle upon any quarter section (or 160 acres), and have the right of prior claim to purchase on complying with certain regulations.

The homestead laws give the right to one hundred and sixty acres of a dollar-and-a-quarter lands, or to eighty acres of two-dollar-and-a-half lands, to any citizen or appliquarter iands, or to eighty acres of two-dollar-and-s-hair lands, to any citizen or applicant for citizenship over twenty-one who will actually settle upon and cultivate the land. This privilege extends only to the surveyed lands, and the title is perfected by the issue of a patent after five years of actual settlement. The only charges in the case of homestead entries are fees and commissions, varying from a minimum of \$7 to a maximum of \$34 for the whole tract entered, according to the size, value or place of record. Another large class of free entries of public lands is that provided for under the timber-outure acts of 1873-78. The purpose of these laws is to promote the growth of forest trees on the public lands. They give the right to any settler who has cultivated for two years as much as five acres in trees to an eighty-acre homestead or, if tan acres.

for two years as much as five acres in trees to an eighty-acre homestead, or, if ten acres, to a homestead of one hundred and sixty acres, and a free patent for his land is given him at the end of three years instead of five. The limitation of the homestead laws to one hundred and sixty acres for each settler is extended in the case of timber-culture so as to grant as many quarter sections of one hundred and sixty acres each as have been improved by the culture for ten years of forty scress of timber thereon, but the quarter sections must not lie immediately contiguous. The fees and commissions in timber-culture entries vary from \$13 to \$18 for the tract.

THE COPYRIGHT LAW OF THE UNITED STATES

EVERY applicant for a copyright must state distinctly the name and residence of the claimant, and whether right is claimed as author, designer, or proprietor. No affidavit

or formal application is required.

A printed copy of the title of the book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph, or a description of the painting, drawing, chromo, statue, statuary, or model or design for a work of the fine arts, for which copyright is desired, must be sent by mail or otherwise, prepaid, addressed, "IRRARIAN OF CORGRESS, WASHINGTON, D. C." This must be done before publication of the book or other article.

A fee of 50 cents, for recording the title of each book or other article, must be inclosed with the title as above, and 50 cents in addition for one dollar in all) for each certificate of copyright under seal of the Librarian of Congress, which will be transmitted by each

Within ten days after publication of each book or other article, two complete copies must be sent propaid, or under free labels, furnished by the Librarian, to perfect the copyright, with the address, "LIBRARIAN OF CONGRESS, WASHINGTON, D. C."

Without the deposit of copies above required the copyright is void, and a penalty of

\$25 is incorred.

No copyright is valid unless notice is given by inserting in every copy published,

"Entered according to act of Congress, in the year —, by —, in the office of the Libraries Congress, at Washington," or, at the option of the person entering the copyright, the of Congress, at Washington, words: " Copyright, 18-, by -

The law imposes a penalty of \$100 upon any person who has not obtained copyright who shall insert the notice "Entered according to act of Congress," or "Copyright," or words of the same import, in or upon any book or other article.

Each copyright secures the exclusive right of publishing the book or article copyrighted for the term of twenty-eight years. Six months before the end of that time, the author or designer, or his widow or children, may secure a renewal for the further term of fourteen years, making forty-two years in all.

Any copyright is assignable in law by any instrument of writing, but such assignment must be recorded in the office of the Librarian of Congress within sixty days from its

date. The fee for this record and certificate is one dollar.

A copy of the record (or duplicate certificate) of any copyright entry will be furnished,

under seal, at the rate of fifty cents.

Copyrights cannot be granted upon Trade-marks, nor upon Labels intended to be used with any article of manufacture. If protection for such prints or labels is desired, application must be made to the Patent Office, where they are registered at a fee of \$6 for labels and \$25 for trade-marks.

Nors.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Kallway Bonds.

1. Five and ax per cent, bonds issued under Acts of July 17 and August 5, 1861, March 3, 1863, July 14, 1870, and January 20, 1871, conditued at three and a half per cent.

2. The Temporary Loan, per Act of July 11, 1862, is included in the 4 per cents from 1862 to 1868 inclusive, with the exception of the amount outstanding for August 31, 1865, this being the date at which the public deep reached its highest point. This loan bore interest from 4, per cent, to 6 per cent, and was redeemable on ten days notice after 30 days, but being coast only charging, it has been considered more applicable as inclusive, the whole amount outstanding as burnay 1 per cent, interest on an average for the year.

Before 1831, the Treasury accounts did not separate merchandise from specie.

The figures for 1843 are fc⁻⁹ months, the fiscal year having then been changed from sept.

20 to June 20.

The import values are invoice prices in gold at place of shipment, and the export values are also in specie. From 1862 to 1878, representing the period of suspension of specie payments, an additional column on the right exhibits the currency value of domestic exports, added to the specie of domestic production exported.

Estimated Aggregate Production of the Precious Metals during the Twenty-seven Years from 1849 to 1875, inclusive.

Note.—The rule observed in the above table, of including only specific articles, which pay as much as \$100,000 revenue into the Treasury, of course omits a great many minor articles of commerce, yielding little revenue. To print the whole in detail would occupy too great space, but the scheme followed sums up the segrecate of each great class of imported commodites, with the duties collected, and the average percentage of duty thereon.

Brief History of the Standard Silver Dollar.

Authorized to be coined, Act of April 2, 1792. Weight, 416 grains, standard silver; Finoness, 892.4: equivalent to 371% grains of fine silver, with 44% grains alloy of pure

copper.
Weight changed, Act of January 18, 1837, to 412% grains, and fineness changed to 900, preserving the same amount of pure silver = ?71% grains, with 1-10 alloy. Coinage discontinued, Act of February 12, 1873.
Total a mount coined, from 1792 to 1873, 83,043,638.

Coinage revived, two million dollars per month required to be coined, and issue made lemi-tender for all debts, public and private, Act of February 28, 1878.

Total amount coined, February 28, 1878, to Oct. 1, 18.3, \$151,370,899.

LOWEST AND HIGHEST PRICES OF COMMODITIES FOR FIFTY-SEVEN YEARS-1825-1882.

These tables of prices have been compiled upon the basis of selecting the leading articles entering into general consumption, whether as semi-luxuries or the necessaries of life. The prices quoted being those of the New York market, still wider variations would in some cases have been exhibited if other markets, near the centres of production of some leading staples, had been collated with these. The tables exhibit the violent fluctuations of the civil war period in the United States—1861-65—and the years of expansion immediately succeeding, in contrast with the general decline of the past few years, which has not yet reached, however, save in a few articles, the minimum prices which prevailed before the war,

LOWEST AND HIGHEST PRICES OF COMMODITIES FOR FIFTY-SEVEN YEARS-1825-1882.

Compiled from the Reports of the Secretary of the Treasury for 1863 and 1873, Reports of the N.Y. Chamber of Commerce, the N.Y. Shipping List and Price-Current, and the N.Y. Produce Exchange Reports.

Nors.—In the American Almenae and Tressury of Facts for 1878, pp. 278-9, appeared a table of priose compiled on the basis of the average price of each articles in New York, the lest of January of each year. Such a table, however useful, fails to give the data which are important in forming a judgment of the whole range of prices for each year. The following table, carefully compiled from the sources indicated, takes the prices of the twelve, months in each year, selecting the highest and lowest quotation for each article. It is to be understood, where no mention of quality is made, that the price quoted is for the cheapest grade of each commodity.

Elected in place of Alexander H. Stephens, deceased, for the residue of his term. Lieutenant-Governor McEnery succeeded Governor Wiltz, deceased, at the date named.

named.

(3 The Oregon Legislature, in 1882, made the term of Governor and other officers elected for 4 years terminate in January, thus giving 4 years and 4 months (nearly) to officers chosen in 1882.

4 In Wisconsin a constitutional amendment was adopted in 1882, making elections biennial, at the same time extending the term of the Governor and other officers to 8 years, for the present term only.

AMERICAN ALMANAO FOR 1884.

¹ California holds in trust her own School and University funds, \$2,790,000 of her bonded debt, on which interest only is payable, reducing the net debt to \$606,500.

² Delaware has no State tax on property, and therefore no State valuation of taxable property.

³ The State of Maryland held \$4,235,713 in interest paying securities of corporations, besides \$23,360,682 in unproductive securities.

Massachusetts held \$14,285,782 in Sinking Fund.

Mississippi's debt was due the School Fund to the amount of \$1,818,145 on which interest only is payable, leaving net debt, less cash in treasury, \$322,615.

New York held in Sinking Fund, October 1, 1882, \$2,422,982.

⁷ Pennsylvania held, December 1, 1882, \$2,077,074 in Sinking Fund; in stock of incorporated companies, interest paying, \$7,300,000; net debt \$13,794,208.

In these States the Governor and State officers are elected quadrennially, and the Legislature (or the members of the Assembly) every two years.

By act of Congress, March 1, 1792, amended Jan. 23, 1845, a uniform day of election for Electors of President and Vice President, is fixed for all the States—being the Tuesday next after the first Monday in November, every fourth year after a President has been elected.

By act of March 3, 1875, elections of Representatives in Congress are required to be held on the Tuesday next after the first Monday in November, every second year, in 1876 and following years. Subsequent special Acts enable States whose Constitutions as different date to elect earlier, until they amend their Constitutions.

b In Louisiana, the Legislature and State officers are elected quadrennially; members of Congress biennially.

In Presidential election years, Iowa's election day is the Tuesday after 1st Monday in November.

² The Ohio election, for State Ticket and Congress, is in October; for Presidential electors, in November.

Wisconsin has changed the sessions of the Legislature, and the times of election from annual to bienuial.

Numbers, Term of Office, Salaries, and Time of Meeting of State and Territorial Legislatures.

 $^{^1}$ In Ohio and a few other States, where the Legislative sessions are biennial, the Legislature holds "Adjourned Sessions," practically amounting to annual meetings.

Unless extended by special vote.

The Rhode Island Legislature is required to meet annually the last Tuesday in May, at Newport, and an adjourned session to be holden annually at Providence.

HISTORICAL AND STATISTICAL TABLE OF THE UNITED STATESAND TERRITORIES, SHOWING THE AREA OF EACH IN SQUARE MILES AND IN ACRES; THE DATE OF ORGANIZATION OF TERRITORIES; DATE OF ADMISSION OF NEW STATES INTO THE UNION, WITH THE STATUTORY REFERENCES FOR EACH.

From the Report of the Commissioner of the General Land Office, with Corrections. The areas re from the Census Report of 1880.

FOREIGN COUNTRIES.

NOTE.—For the rulers or heads of principal nations, see page 111

Argentine Republic.

This country has an area as great as all Central and Western Europe combined (about 1,619,500 sq. miles), and a population of 1,768,681 by census of 1869, now estimated at 3,000,000. It abounds in remarkably fertile plains, called pampas, with rich alluvial soil four or five feet thick, formed by decay of luxurious vegetation.

Econ size of 14 provinces: the province of Buenos Ayres is the most populous, having over half a million population, with a capital city—Buenos Ayres—of 200,000, estimated for 1878. The vast extent of Indian country is very sparsely populated. The population of Buenos Ayres and the riverine provinces is largely European, and immigration has increased enormously of late years, attracted by the fertility of the soil and the prosperity and free institutions of the Bepublic. By the last census there were 212,000 people of foreign birth, occupying 2,000,000 acres of land, in the province of Buenos Ayres alone, and owning 35 million sheep besides multitudes of horned cettle. Buenos Ayres alone, and owning 35 million sheep, besides multitudes of horned cattle,

buildings, etc., acquired in a few years by men who, on arrival, did not own a dollar. Eminently a pastoral country, with about 18 million horned cattle, and 140 million sheep, the exports are largely of wool, hides, and tallow. The premium on gold varied from 30 to 33 per cent. in 1878. The exports in 1882 were \$60,589,502, and the imports \$61,246,163. 12 lines of steamers run to Europe, the passage occupying 29 days. The republic has nearly 1,800 miles of railway and 8,000 miles of telegraph, besides an Atlantic achle communicating with London

Atlantic cable communicating with London.

The revenue for 1882 was \$26,763,985, derived almost wholly from import and export duties. The expenditure in 1882 was \$19,848,982; and the total national debt \$103,621,461. The government is a Federal Republic, modelled on the Constitution of the United States, except that the ministry is responsible to Congress, an adverse vote in the Senate and House leading to the formation of a new Cabinet. The laws are the same for all, native or foreign; immigrants are free to naturalize themselves as Argentines or to

maintain their foreign nationality.

Austria.

Called, since 1867, the Austro-Hungarian Monarchy (240,000 square miles; population tailed, since 100; since Austro-Hungarian monactury (20,000 square innes; population in 1880, 37,41,413), comprises five countries, each bearing the name of kingdom. Its largest city and capital, Vienna, had 726,105 inhabitants in 1880.

The population of Austria embraces several distinct races, the most numerous being

the German, numbering 9 millions, or 25 per cent. of the whole.

the German, numbering windlons, or 20 per cent. of the whole.

The various Slavonio races number about 16½ millions, or 46 per cent., Poles, Croats, Serbians, Czechs, Moravians, etc. The Magyars, or Hungarians, number 5½ millions, or 16 per cent.; the Walachians, nearly 3 millions; the Jews, 1,100,000; the Italians 155,000; and Gypsies, 140,000.

About two-thirds of the people profess the Boman Catholic religion. Education

receives great attention, and is open to all at small cost, or even gratuitously. In Austria, all children from six to twelve are bound to attend the common schools, and

Austria, all children from six to twelve are bound to attend the common schools, and fo per cent. actually do so. There are 92 gymnasia, or higher schools, and 6 universities, while Hungary has 142 gymnasia, and one university.

The majority of the people pursue agriculture. About 80 per cent. are engaged in trade or manufactures. The productive land of Austria is estimated at 99 per cent. of its area; Hungary 84 per cent. The great crop is grain, an annual yield of over 400 million bushels. For commerce, Austria is not favorably situated, being an inland country. The principal sea-port is Trieste, on the Adriatic. Total imports 1882, 336 million dollars, and exports 376 million dollars.

The legislative body, or Retcherath, consists of a Hunga of Lords nominated by the

The legislative body, or Reichsrath, consists of a House of Lords nominated by the Emperor, consisting partly of life members and partly of hereditary nobles; and a House of Representatives, 353 members, elected by all citizens who possess a small property qualification.

property qualification.

Hungary has a Reichstag, consisting of a House of Magnates for high officers and peers of the kingdom, and a House of Representatives elected for three years. The sovereign (the Austro-Hungarian Emperor) is styled king in Hungary.

In the imperial finances Austria pays 70 per cent. and Hungary 30 per cent. toward the expenses of the empire. The budget of 1881 summed up: receipts, 48 million dollars; expenditures, about the same. The budget of Austria proper amounted to 179 million dollars in 1881; the expenditures to \$231,500,000. The Hungarian budget for 1882, including receipts \$130,786,885, and expenditures, \$126,238,560. The public debt of the empire was \$1,667,976,118. of the empire was \$1,687,978,118.

The army, on a peace footing, consisted in 1881 of 289,190 men and 16,635 officers.

Military service is compulsory for ten years.

The navy in 1881 consisted of 68 vessels, 11 of which were ironelads, and 30 steam mels, with 820 guns-

Belgium.

Belgium is a kingdom of Western Europe; area, 11,878 square miles; population, 1880, 5,519,844, capital, Brussels, 164,598. Most of the people are Roman Catholics, there being about 16,000 Protestants and 3,000 Jews. Revenue, 1882, \$59,329,400; expenditures, \$60,715,115.

The public debt in 1882 was \$294,062,230. Imports in 1882, \$326,179,280; exports,

\$260.654,000. Army, peace footing, 46,383.

Railways in operation, 1882, 2,582 miles, two-thirds of which were owned and managed by the government; miles of telegraph, 1882, 3,213; postoffices, 852; letters carried, 65,71,978; postal cards, 16,730,012; journals, 74,869,000. The great interests are agri culture and manufactures, Belgium being one great workshop. Education is realously promoted by the government, but, notwithstanding abundant primary school provisions, only 58 per cent. of the population above 7 years of age were able to read and write in 1866.

Bolivia.

Bolivia, a republic of South America, named in honor of Bolivar, (536,200 square miles; population 1878, estimated, 2,080,000, to which should be added about 245,000 wild Indians), is divided into 9 departments, each having a distinct governor. The which indusis), is divided into y departments, each naving a distinct governor. The government is popular in form, three legislative chambers being elected for four years, eight years, and for life. The president is elected for life by a majority of the collective legislature. The administration belongs wholly to the ministry, which is responsible to the Senate. Religion is free, the Roman Catholic being the prevailing form.

The public debt in 1881 was \$30,000,000. The revenue was \$3,465,790 in 1881, one-fifth of which was derived from customs, about as much from Indian tribute, and half as much from the sale of guano; expenditure, \$4,799,225. Imports in 1879, \$5,000,000;

much iron in seaso and guasar, any analysis granaries of wheat production, has much valuable timber, and the lowlands are the seat of tropical forests and swamps are the seat of tropical forests and swamps. much valuable timber, and the lowlands are the seat of tropical forests and swamps, with every variety of climate, and two or more zones of production. It produces comes, cotton, sugar-canes, garden vegetables and fruits in surprising luxuriance and abundance. Western Bolivia contains the highest mountains of the two Americas, with frequent volcances. The great Cordillera range, reaching up into the region of eternal ice and snow, culminating in the peak of Sorata, 24,800 feet high. The silver-mines of Potosi, world-camous for richness of production, have yielded over \$1,600,000,000 since 1845. Bolivia is poorly supplied with roads, and railroads are as yet almost unknown, great natural difficulties being presented to their construction.

Brazil.

Brazil, the only kingdom in America, (area, 3,287,964 square miles; population, 1872, 10,108,291,) is the largest of the South American countries. First discovered by Spaniards in 1500, the country early fell into Portuguese possession, afterwards passing under the Spanish rule, but reverting to Portugal in 1640.

The legislative power is vested in a Senate of 58 members elected for life, and a Chamber of Deputies, 122 members, chosen for four years by direct suffrage.

The executive power is vested in the emperor, and his ministers and secretaries of state. For administrative purposes, the Brazilian empire is divided into twenty provinces, comprising 642 municipalities, each having a council chosen directly by diti-Zons.

The public debt of Brazil is about \$411,375,000, of which \$85,000,000 consists of paper money issues. The revenue for 1882 was \$63,985,000, more than one-half of which was customs duties, and one-sixth from export duties, the taxes in both these forms on commodities being very heavy. The expenditure in 1823 was \$80,925,000, The army consists of 15,304 men, raised to 32,000 on a war footing.

The naval force embraces 41 steam vessels, with 230 guns, and 4,136 seamen.

Free public schools supported by the state exist throughout the empire, and in some of the provinces instruction is compulsory.

Brazil has about 500 newspapers, of which six dailies are published at the capital,

Rio de Janeiro.

The Roman Catholic religion is established, other forms being tolerated, though they may only be practised privately, and dissenters enjoy civil rights, even that of elec-

tion to the General Assembly.

Brazilian commerce is flourishing, and there are 28 lines of steam vessels, receiving annual subsidy from the state to the amount of \$1,000,000; besides this, the North American steamship line, running between Brazil and New York, enjoyed a Brazilian subsidy can steamship line, running between Brazil and New York, enjoyed a Brazilian sudesty of \$100,000 annually. The imports in 1890 aggregated \$86,806,150, and the exports, chiefly of coffee, hides, and sugar, \$111,195,850. By a decree of 1867, the great river Amazon was opened to the trading ships of all nations. In 1874, a submarine telegraph cable was completed from Europe. The roads of Brazil are wretched, but railways have been constructed to the number of over twenty, and are being rapidly extended by the state. se well as by private enterprise, 1899 miles of railway being open in 1822.

THE DOMINION OF CANADA.

[Compiled from the Sessional Papers of the Dominion of Canada for 1883, and other Official Sources]

The Dominion of Canada forms (since 1867) a confederate government, embracing the British North American Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, Manitoba, British Columbia, North-west Territory, Vancouver's Island, and Prince Edward Island. It has a representative parliament, meeting annually at Ottawa, the capital. The members of the Senate, 77 in number, are nominated for life

States.

The merchant shipping of the Dominion, January 1, 1892, numbered 7,312 vessels, measuring 1,260,777 tons, and is steadily increasing. Value of merchant shipping, \$39,326,830. The canals of Canada are extensive and profitable, and are managed by the Government. The Welland canal charges 20 cents per ton on grain and other bulky freights, and 2½ cents a ton on each vessel.

The Canadian banks held \$67,000,000 in deposits, with a note issue of \$17,500,000; coin, \$5,500,000; and bills discounted, \$135,000,000.

Coin, \$5,000,000; and blis discounted, \$135,000,000.

The total money value of the fisheries within the Dominion of Canada has been as follows, for the past thirteen years: 1870 ... \$8,677.991 72 | 1874 ... \$11,681,886 20 | 1878 ... \$13,373,486 00 1871 ... 7,573,199 85 | 1875 ... 10,350,385 29 | 1879 ... 13,599,183 00 1872 ... 9,570,116 05 | 1876 ... 11,012,302 39 | 1880 ... 14,499,980 00 1878 ... 10,647,402 44 | 1877 ... 11,422,501 77 | 1881 ... 15,817,183 00 1881..... 15,817,163 00 16,088,672 00 1882.....

The census of the Dominion in 1881 showed a population of 4,352,093, against 3,683,596 in 1871, a gain of 18 per cent. The Indian population of 4,362,093, against by the Superintendent of Indian Affairs, in 1877, was 99,650.

The average of duty on all imported commodities, subject to duty, was 25.82 per cent. in 1882. Expense of collecting customs revenue, 3.87 per cent.

The census of 1881 returned the amount of capital invested in manufacturing industries at \$165,902,623. The average wages of Canadian mechanics was \$350.00 yearly, in 1881. Milos of railway in operation, 1882, 8,069; miles under construction, \$189. Receipts, passenger traffic, 1882, \$10,018,478; freight traffic, \$17,739,945; total receipts, \$29,027,790.

Commerce of Canada for Fifteen Years-1868-1882.

Statement showing the Values of Total Exports, Imports, and Goods entered for Consumption in the Dominion, with the Duty Collected thereon:

Year ending June 30,	Total Exports.	Total Imports.	Entered for Consumption.	Duty.

Chili.

Chii, a republic of South America, area 124,084 square miles, population, 1882, 2,223,434 to which should be added by official estimate, about 50,000 Indians, is a mountainous country subject to frequent earthquakes. It has almost every variety of climate, its long narrow territory extending from the hot deserts near the equator to the cold and wet region within twelve degrees of the Antarctic Circle. One-quarter of the country is near the level of the sea, while the great Andes range of mountains rise far above the line of perpetual snow, their mean elevation being 11,830 feet, and the highest peak (Aconcagua) 22,427 feet.

Chili, originally a Spanish settlement, became independent in 1816-17. By the constitution of 1833 the Legislative power is in a National Congress composed of 37 members, elected for six years, and a Chamber of Deputies, 109 members, for three years. Suftrage is universal to citizens able to read and write and paying a small annual tax.

The executive power resides in a President elected for five years, a council of State, and five eabinet ministers, having salaries of \$6,000 each.

The national debt in 1881 amounted to \$78,537,235, mostly contracted in England for the construction of railways. The revenue for 1882 was \$20,258,500, one-half derived from customs and monopolies, and the expenditure \$21,310,715. The commerce of from customs and monopolies, and the expenditure \$21,310,715. The commerce of Chili is considerable, the exports being \$60,389,052 in 1881, and the imports \$39,565,480, nearly one-half the commerce being with Great Britain.

Agriculture flourishes, although about & per cent of the entire surface is desert, pasture, or forests, with only 18 per cent arable land. Wheat is the most important product, the crop averaging ten million bushels, two-thirds of which is exported.

Chili is rich in gold, silver, and especially in copper.

The army, reduced in 1875 to 3,500 men, was largely increased in 1879 on account of the

The navy consists of 20 to 22 steam vessels, manned by 1,800 men.

Education is largely aided by government, which supports 810 schools through the country, besides lyceums and the University of Chili, an invaluable government institution, with 700 students, 37 professors, and free instruction.

The Roman Catholic religion is recognized by the constitution, but the public profes-

sion of other forms is tolerated.

Chins.

China, an immense empire in Asia, area 4,560,107 square miles, population 375,000,000 China, an immense empire in Asia, area 4,560,107 square miles, population 375,000,000 (estimated), has of late years opened diplomatic and commercial intercourse with other nations. It includes Tibet, Mongolia, and Manchuria, besides China proper; the country abounds in numerous rivers, forming the chief highways of the empire. The government is a patriarchal despotism, the Emperor being an autocrat, whose sway is limited only by the sacred right of rebellion. Its vast and productive territory is larger than that of any nation except Russia, and its civilization, the most ancient in the world, has peculiarities unknown to the civilizations of Europe or America. The exclusiveness which long made China a sealed book is slowly giving way, and the empire now sends its ministers to the United States, England, France, Germany, Russia, Spain, the Wast Indies, and Japan: but the Chinese government still refuses to onen the empire to West Indies, and Japan; but the Chinese government still refuses to open the empire to railroads and telegraphs, and destroyed in 1877 the first and only railway laid in the empire; and only 14 of its numerous ports are open to foreign trade. The imports in 1881 were \$105,000,000 and the exports \$110,000,000 about one-third of the commerce is with Great Britain; slik and tea make up three-fourths of the exports, while opium and cuton goods constitute two-thirds of the imports. No certain information regarding Ohinese finances exists, but the revenues were estimated in 1878 at \$190,400,000; the public debt is of unknown amount, being wholly domestic, except one foreign loan of \$750,000 at 8 per cent. recently contracted, and guaranteed by the customs receipts. The army of China has 270,000 men organized after the European custom, while on paper the military force is set down 800,000 Chinese and 271,000 Manchoos. The navy

embraces 38 vessels.

Colombia.

Colombia (the United States of) is a confederated republic in South America, including a large part of what was called New Granada; area \$20,835 equare miles; population, 1870, 2,951,323, besides about 100,000 wild Indians. Its present political organization dates from 1863. The largest city is Bogota, the capital, with 50,000 inhabitants, and Panama has about 20,000.

Panama has about 20,000.

The legislative power resides in a Senate of 27 members, and a Representative Chamber of 61, elected by general suffrage. The executive power is exercised by a President chosen for two years by the people of the different States, and by four ministers. The revenue is 'ery small, amounting in 1880 to only \$7, 185,000, two-thirds of which was from customs. The expenditure was \$13,625,000 in 1879. The public debt amounted to \$21,756,410 in 1882; imports in 1881 to \$12,183,870; exports, \$15,805,000. Coffee, cotton, tobacco, and cinchona bark form a large part of the exports, and agriculture is the leading industry. Only two rallways are in operation, the Panama line across the Isthmus, 46 miles, being the principal. Telegraphs, 1,830 miles. Letters expend by nost-office, 388,245.

carried by post-office, 358,254.

Colombia has no navy, and the army in time of peace musters only \$,000 men. cation has been recently much improved, the law of 1870 transferring it from the hands of the clergy to the State, and requiring compulsory instruction, the general government subsidising the States to maintain schools. Religious freedom prevails, there being no State church, though the predominant religion is Roman Catholic.

Costa Rica.

Costa Rica, the most southern republic of Central America, area 21,495 square miles, population in 1874, 185,000, mostly of Spanish descent, with very slight foreign elements. It is divided into six provinces, the government being vested in a President elected for 4 years, two Vice-Presidents and four ministers. The legislative power is in a Congress

The revenue for 4 years.

The revenue for fiscal year 1878, \$3,819,211, one-third of which is derived from the monopoly of tobacco and brandy by the government, the rest from customs and various taxes. The expenditure was \$3,904,657, and the public debt \$12,000,000. The exports of 1878 were \$5,187,062, of which coffee alone amounted to about \$4,450,000; the imports were \$3,116,290, chiefly manufactures from England.

There is no standing army except 900 soldiers of the militia, which comprises 16,370 men, or all between the age of 15 and 30. The State Religion is Roman Catholic, but full religious liberty is guaranteed by the Constitution. The soil is extremely fertile; there are vast forcets of mahogany, ebony, Brazil-wood, and India-rubber trees, and the climate fosters almost all the fruits of the tropic and temperate zones, about 1,100 square miles being under cultivation. Railways, 105 miles; telegraphs, 451 miles.

Cuba.

Cuba, a colony of Spain, in the West Indies, having 72,000 square miles; population, 1876, 1,414,508, half of whom are blacks, and enfranchised slaves. The island is governed by a Captain General, appointed by the Spanish crown. Its great staple is sugar, of which 450,000 to 600,000 tons are annually exported, two-thirds of it to the United States, besides 4,000,000 to 5,000,000 galions of molasses.

Denmark.

Denmark, (area 14,553 square miles; population, 1830 2,036,400), is a constitutional kingdom, occupying an almost insular position between the North Sea and the Baltic. The climate is like that of Scotland in the same latitude, the mean temperature of the year being 47° at Copenhagen. The constitutional charter of 1849, vests the legislative power in the Rigadag, consisting of a Folkething, 102 members, and a Landsthing, 66 members (1850 charter amended in 1866). The Folkething are elected for three years by universal suffrage, and the Landsthing for eight years by electoral districts, except 12 members who are nominated for life by the King. King, Christian IX; Minister of Finance, J. B. S. Estrup; Minister of the Interior, E. V. E. de Skeel; Minister of Justice, J. M. V. Nellemann; Minister of Worship and Public Instruction, J. Seavenius, Minister of Foreign Affairs, Baron de Rosenorn-Lehn; Minister of War and Marine. Comm. N. F. Raven. The budget for 1882-83, including receipts, \$18,142,565, of which no less than \$8,300,000 from indirect taxes and \$2,300,000 from direct taxes. The expenditure was \$14,727,400, one-fourth of which was on occount of the national debt, which amounted in 1881 to \$63,905,125,

The army (recruited by conscription) embraces 35,727 men, besides a reserve of 15,258. The navy in 1876 included 33 steam vessels with 230 guns, and 29 sail vessels.

The commerce of Denmark in 1881 comprised \$64,744,310 imports, and \$51,576,816

exports, the exports chiefly grain and provisions.

There are 988 miles of railway, two-thirds of which are operated by the State. The government telegraph embraces 1,650 miles, which transmitted a total of 940,655 dispatches in 1876. The postal system, 1881, transmitted 23,572,652 letters and 26,990,087 newspapers.

The established church of Denmark is the Lutheran-Protestant-Boman Catholics.

are however long since tolerated in Scandinavia.

By the consus of 1870 there were, Lutherans, 1,777,000; Jews, 4,300; Baptists, 3,200; Mormons, 2,200; Roman Catholics, 1,800.

Education is highly developed by the compulsory system, and almost all the lower

classes can read and write.

Ecuador.

Ecuador, a South American republic, traversed by the equator, from which it takes acusaur, a south american republic, traversed by the equator, from which it takes its name, area 248,312 square miles, population in 1878, 1,145,000, besides about 200,000 Indians; capital, Quito, has about 80,000 people; Guayaquil, the principal seaport, 26,000. Quito is the lottiest inhabited city, 9500 feet above the sea. The country is traversed by the two vast mountain ranges of the Cordilleras, reaching to a height of 18,000 feet, full of noble volcanic summits, and divided by magnificent valleys. Cotopaxi and Chimbonard are expected with paragraphs razo are capped with perpetual snow.

The government is vested in a President, chosen by 900 electors appointed by popular vote, the Vice-President, who is Minister of the Interior, and three other cabinet officers. The Congress consists of a Senate of sixteen, and a House of thirty members chosen by popular suffrage. ✓ The army has only 1,200 men, and the navy three small steamers. The finances, which are in a state of chronic deficit, represented in 1879 revenues (half derived from customs) amounting to \$1,855,600, expenditures \$2,688,000. The public debt in 1879 was \$11,350,400.

Roads are almost unknown in Ecuador, being mostly mere mule tracks, impassable for several months of the year; all transportation of goods is on the backs of mules, wheeled conveyances being almost unknown. There are 15 miles of railway.

The principal article of export is cacao, amounting to \$4,539,641 in 1879, out of a total of \$5,871,912; the imports were about \$6,000,000.

The sole religion professed is the Roman Catholic, and 10 per cent. of the Church revenue belonging to the State goes to the Pope as an annual offering. Education is in the hands of the clergy, with about 600 schools, one university and several colleges.

Egypt.

Egypt, a dependency of Turkey, situated in northern Africa, area 1,152,948 square miles; population in 1877, 17,419,980 (estimated), including Nubia and Soodan. Imports 1881, \$35,554,340; exports, \$68,423,150, More than half the commerce is with Great Britain. The executive power, which is absolute, is in the hands of the Khedive, a prince tributary to the Sultan. The largest city is Cairo, 349,883 inhabitants. Revenue for 1880 was estimated at \$43,732,930 and the expenditures at \$43,319,840. Public debt, \$441,830.00 Arms 15,000 males. \$401.820,700. Army, 15,000 men; navy, 14 vessels. Railways in 1879, 1,500 miles; telegraphs, 5,260 miles. Letters carried by post in 1877, 2,648,000; journals, 728,449.

France.

The republic of France, (204,080 square miles; population in 1881, 37,672,048,) dates its present constitution and government from the 4th of September, 1870, when the Second Empire, under Napoleon III, came to an end. The legislative power is vested in a Corps Legislatif, consisting of a Senate of 300 members, 225 of whom are chosen for 9 years by the Departments and the colonies, and 75 for life by the National Assembly; and a Chamber of Deputies, now 532 members, elected by universal suffrage, one deputy to each 100,000 inhabitants. Salary of Senators and Deputies, \$1,800. Every Frenchman of 21 years has the right to vote, and there were in 1876, 9,948,070 legal voters, a ratio of one voter to every four inhabitants nearly.

voters, a ratio of one voter to every four inhabitants nearly.

The executive power is vested in a President, elected for seven years by a joint assembly of the Senate and the Chamber of Deputies; salary, \$120,000, and \$32,480 for household expenses; he has power to dissolve the Chamber of Deputies upon the advice of the Senate. The ministry, or Secretaries of State, consisting of nine members, are responsible to the Chambers for the political conduct of the government, while the President is responsible only in case of high treason.

Besides these officers, there is a Council of State presided over by the Minister of Justice, whose function it is to advise on all subjects of law and administrative regulations submitted to it, its decision being final on causes or complaints against officers of the Government.

of the Government.

France is divided into 87 departments, which are subdivided into 362 "arrondissements," 2865 "cantous," and about 36,000 "communes." The President of the Republic appoints a prefect or administrative officer for each department, who is head of the police, issues local decrees, superintends tax collection, and, in a word, represents the

government as general agent, assisted by a council elected by the people.

Public debt is divided into funded debt, which is not subject to re-imbursement, but only to interest payment, and floating debt or deposits with the treasury, and bills of exchange called "bons du trésor." The funded debt, represented by 5, 4% and 3 per

rent. Rentes, was \$4,760,387,108, and the floating debt, \$65,000,000.

Revenue for 1882, \$577,307,045; expenditure, \$670,844,581.

Imports in 1882 amounted to \$1,076,461,800, and exports the same year to \$789,303,800.

Miles of railway, January 1, 1883, 16,157.

The large revenues are derived chiefly from excise and stamp taxes, only the insignificant sums of \$73,000,000, or about per cent. of the whole revenue, coming from customs; the land tax or "contribution foncière," is assessed on the net revenue of customs; the land tax or "contribt...on ronders." is assessed on the net revenue of illards and houses; the poll-tax, the door and window tax, and the license tax bring in large sums; the income tax is 3 per cent. on income from public funds or any other dividends, besides which the stamp taxes amount to 3 or 4 per cent. on this class of property; the excise brings in the largest revenue of all, about \$200,000,000 per annum, and is levied on spirits, tobacco, salt, sugar, paper, matches, coaches, railways, bridges, receipts, etc.

The army, consisting of about 503,000 men in time of peace, and 19,057 officers, costs about \$115,000,000 per annum. Every Frenchman of 20 years owes to the equitry five

Years active service, with very slight exemptions.

The French navy has 258 vessels, 1758 officers, and about 50,000 marines.

The Boman Catholic Church is the most powerful in France, and the sums paid to

the clergy of that faith by the government amount to about \$8,000,000 a year.

Systematic provision is made for public instruction, every commune having to maintain primary schools, though education is neither gratuitous nor compulsory. In 1878,
our of a population of 23,294,554 above twenty years, 7,702,362 could neither read nor write.

About half the French people are engaged in agriculture, and the multitude of small landed proprietors is greater proportionally than in any country except the United States; out of 18,513,525 rural population there were 9,000,000 land owners living on their lands, 4,570,000 far mers and tenants, and only 3,255,000 day laborers. The value of land under fillage varied from \$105 to \$323 per acre, and the rent of land from \$3.64 to \$12.14 per acre.

Germany.

The empire of Germany, (208,624 square miles; population, 1880, 45,194,172,) succeeded in 1871, to the North German Confederation of 1866. It is a Union of 25 sovereign states, consisting of 4 kingdoms, 6 grand duchies, 5 duchies, 7 principalities, and three free towns. Alsace-Lorraine, ceded by France at the close of the war of 1870-71, forms a 26th member of the confederation, but is governed by Imperial authority.

Germany is a constitutional monarchy, the Emperor exercising imperial power in the name of the 25 confederated states. The Bundesrath, or federal council, has 59

Germany is a constitutional monarchy, the Emperor exercising imperial power in the name of the 25 confederated states. The Bundesrath, or federal council, has 59 members appointed for each session by the governments of the seyeral states. The Reichstag, or House of Representatives, has 397 members, elected for 3 years by universal suffrage—every German of 21 years being an elector. The sessions of the legislature are annual, and every law must receive a majority of the whole number of members of both Houses, and the sanction of the Emperor.

The revenue for fiscal year ending March 31, 1893, was \$147.639.160, derived one-half from customs, one-third excise on sugar, salt, tobacco, spirits and mait, and the remaining quota from various sources. The expenditure for ordinary purposes was \$147,639,848, of which no less than \$90,640,000 was for the army, and \$20,000,000 extraordinary expenses. The deficiency in revenue to meet expenditure was made up by contributions of the states, \$26,000,000, and loans \$12,000,000. In 1879, heavy additions were made to the tariff on imported goods, and Germany has returned to an extreme protective system. protective system.

The public debt is only about \$60,000,000 funded, and about \$50,000,000 floating debt,

represented by Treasury notes bearing no interest.

An exclusive gold currency was adopted by law of December 4, 1871.

The German army on a peace footing has been fixed at 445,462 men until December 31, 1882. Military service is compulsory upon every German capable of bearing arms. The German navy consists of 36 vessels, 965 officers and 15,000 men.

Public school education is compulsory in Germany; the number of primary schools is about 60,000, and of pupils, 6,500,000. There are 360 gymnasia for preparatory training for the universities; of the latter, there are 21, with 1,913 professors, and 20,826

students. The population of Germany in 1875 embraced about 27,000,000 Protestants, 15,000,000

Roman Catholics, and 500,000 Jews. The foreign commerce of Germany amounted in 1881 to \$709,288,150 imports, \$773,

780,150 exports.

Germany had in 1888,21,679 miles of railway, about 11,000 miles of which were worked by the government, and 7.689 miles only were private railways. In 1883 there were 11,297 miles of telegraph lines, sending 17 million messages. The postal and telegraphic departments are managed conjointly by the government, and have increased greatly of late years, the number of letters carried in 1883, being 563 millions, against 352 millions in 1872.

Great Britain.

Great Britain, a kingdom embracing England, Wales, Scotland, Ireland, and the Channel Islands, area 121,671 square miles, population 1881, 35,246,633, has also immense landed possessions in all parts of the globe; its colonies in Asia, chiefly British India, embrace over 250,000,000 inhabitants, in America over 5,000,000, and in Australia 2,700,000. embrace over 20,000,000 innabitants, in America over 3,000,000, and in Australia 2,100,000. By the British constitution the supreme legislative power is in a Parliament which holds for seven years unless sconer dissolved by royal proclamation. The house of Lords (537 members in 1880) consists of 5 peers of the Queen's family, 2 archbishops and 24 bishops, 201 dukes, marquises, earls, and viscounts, 261 barons, 16 Scottish and 28 Irish representative peers; all of these but the last named hold for life. The house of Commons consists of 658 members elected by limited suffrage, of whom 40 constitute a quorum to do business; members of Parliament receive no salary.

The executive government, nominally in the Crown, is practically in the Cabinet, consisting of 13 members whose tenure of office is dependent upon their measures

commanding a majority in the House of Commons.

At the head of the Cabinet is the First Lord of the treasury, known as the Premier or Prime Minister; he dispenses the patronage of the Crown, his colleagues being appointed

at his recommendation.

Revenue of Great Britain fiscal year ending March 31, 1883, \$445,022,281; expenditure \$444,531,388, of which no less than 157 millions was for army and navy and 150 millions more for interest. Public debt, 1883, \$3,764,464,971. Imports, 1862, \$2,183,195,480: exports, \$1,638,249,660 The army in 1881 embraced 131,636 men, and 7,199 officers, besides 136,778 militia and

102,810 volunteers, maintained at a total cost of \$74,526,500. The navy constats of 238 vessels, maintained at a cost of \$51,607,975 in 1880.

The island of Great Britain is a net work of railways, of which there were 18,457 miles in operation in 18 83 The telegraph embraced 26,289 miles, owned and operated by the

evernment since 1871. The post-office service of England, carried to a greater perfection than in any other country, delivered 1,281 million letters in 1882, besides 144 million postal cards, and 429 million newspapers and book packets.

Education is widely extended; the total expenditure for elementary schools having

een nearly \$20,000,000 in 1880.

England abounds in iron and coal mines, the product of pig iron amounting to about \$80,000,000 per annum and of coal about \$230,000,000. Textile industries are of enormous extent, employing nearly 1 million hands; the metal manufactures come next employing 650,000 hands. British manufactures are found in all parts of the globe.

Agriculture is carried to a high degree of perfection, though the soil is in the hands of a comparatively small number of proprietors.

Great Britain is a Protestant country, the established church in England being the Episcopal, and in Scotland, Presbyterian, while in Ireland no church is now established Since the abolition of the corn laws or duties upon grain in 1846, England has gradually become a free trade country, only about twenty articles being charged with import duties.

Greece.

Greece, a kingdom of south-eastern Europe, area 20,018 square miles, population 1879, 1,679,775, is governed, since his election by the National Assembly in 1883, by George I., son of the King of Denmark. By the constitution of 1864, the legislative power resides in a parliament or single Chamber of 187 Deputies elected for 4 years by universal suffrage. The revenue for 1882 was \$12,075,000, a third derived from customs, and the expenditure \$14,883,860. The public debt was \$79,606,976 in 1882. Imports, 1881, \$19,586,270; exports \$15,091,160, principally raisins, currants and olive oil. The army consists of 21,689 men, capable of being increased to 200,000 in war. The navy has 11 steamers and 10 sailing weeks in the commercial martine numbered no less than 5 001 vessels. Greece has only vessels. The commercial marine numbered no less than 5,001 vessels. Greece has only 7½ miles of railway, from Athens to the Piræus, and 1,890 miles of telegraph. Post-offices, 140; letters carried, 1876, 3,066,630; journals, 1,995,939.

Guatemala.

Guatemala, the most populous of the five central American republics, 44,800 square crissmals, the most populous of the five central american republics, 4,500 squares miles; population 1872, 1,197,054, of which 380,668 were whites and 880,146 Indians; revenue in 1881, \$7,478,719, third of which was from duties on imports; expenditures, 7,313,889; public debt, \$7,139,169; imports in 1881, \$3,991,098; exports, \$4,084,349, 1881 principally coffee. The country has no railways, though one is commenced, traversing the republic from the Caribbean Sea to the Pacific; there are 1100 miles of telegraph operated by the government. Public instruction is cared for by the government; the army has \$200 men, but there is no navy. Capital, Guatemals, 40,000 inhabitants, finest city in Central Americs. The clerical government was overthroughly a revolution in city in Central America. The clerical government was overthrown by a revolution in 1971, and the executive now resides in a president and a cabinet of four ministers.

Guiana.

Guiana is a large territory in the north-east part of South America, bounded by the Atlantic, the Amazon and the Orinoco. The climate is hot, and the principal products are sugar, rum, and molasses, together with fine timber woods. British Guiana—86,000 square miles, with 248,110 inhabitants in 1879—is divided into Essequibo, Demerara, and square miles, with 248,110 inhabitants in 1879—is divided into Essequibo, Demerara, and Berbice; has a governor appointed by the British crown; capital, Georgetown; population, 36,562. Imports, 1879, \$10,325,225; exports, \$13,577,675.

French Guiana, area 48,000 square miles, population 1877, 86,760; capital, Cayenne, on the island of the same name, which is a French penal settlement.

Dutch Guiana, or Surinam, lies between British and French; area 45,000 square miles;

population 68,255, four-fifths of whom are negroes; capital, Paramaribo.

Haiti.

Haiti is a republic of the West Indies, occupying the west end of the island, of which Santo Domingo forms the eastern or Spanish part. Area of the whole island 28,000 square miles; population of Haiti about 550,000, nine-tenths of whom are negroes, the rest chiefly mulatices. The language in use is French, and the state religion Catholic. By the constitution of 1867 legislative power is in an assembly and a president, chosen for 4 years. The finances are in chronic disorder; the revenue for 1882 was \$5,875,000 \$5,689,000; debt, \$14,000,000. The army has 6,828 men and the navy 2 steam corvettes with 8 guns. In 1881 the imports were \$7,283,621, and the exports \$6,240,460, chiefly coffee, cotton and cocoa.

Honduras.

Honduras, one of the five Central American republics—58,188 square miles, population 576,410—is governed by a president, a single minister, and an assembly of 37 representatives. Revenue for 1882 was \$1,120,000, a third from customs and about a third from monopolies, the expenditure reaching nearly same amount. National debt, \$31,000,000, interest mostly unpaid. The exports amount to about \$1,305,000. The army numbers about 1,500 men. One line of railway is in operation, about \$6 miles long. There are nearly 1,000 miles of telegraph. Education is becoming a prominent interest, and the gevernment established a national college in 1878.

Italy.

Italy, a kingdom of southern Europe; area 114,380 square miles, population 1881, 28,489,481 of whom 26,686,679 were Catholics. It is divided into 69 provinces. The government is a constitutional monarchy, with a senate of 270 members appointed for life, and a chamber of 508 deputies elected by general suffrage. Absolute freedom of the press prevails. The government supports education, which is compulsory and gratuitous, by annual subsidies of about \$5,500,000. Agriculture is the principal Italian interest, though the silk, cotton, woolen, and straw manufactures are becoming important. Italy abounds in populous cities, of which Naples, 450,804. 450 leaves and nnerest, though the sits, cotton, woten, and straw manuscures are becoming important. Italy abounds in populous cities, of which Naples, 450,804, is the largest, and Rome, the capital, has 303,383. Bevenue in 1892, \$306,872,330; expenditure, \$307,447,170; public debt, \$2.042,000,000; imports, 1892, \$267,189,290; experts, \$237,687,386, of which silk made \$66,000,000. Standing army, 736,502; milities, 553,005; navy, 66 vessels with \$39 guns; 5,484 miles of railway in 1882, and 16,566 miles of telegraph.

Japan.

Japan is an empire of Eastern Asia, ruled by a mikado, aided by a great council, and without a legislative body; area, 146,613 square miles; population, 1882, 36,700,118. Evenue, 1882, \$75,616,990, four-fiths of which was from land tax; expenditures, \$75,612,825; public debt, \$279,264,751. The army comprised 36,777 men in 1878, and the navy 27 steam vessels with 5,551 men. Imports, 1879, \$39,068,000; exports, \$37,326,500, one-half of which was raw silk. Nearly one-half the commerce of Japan is with Great Britain and her colonies. Raliroads in operation, 220 miles; telegraphs, 1,791 miles; post-offices, 5,094, transmitting in 1881, 42,021,126 letters. The paper money of Japan is at about 30 per cent. discount.

Mexico.

Mexico, a republic of North America, on the southern boundary of the United States—area 741,598 square miles, population 1877, 9,399,461—is divided into 27 states, besides Lower California and the federal district, governed by a president elected for 4 years, a Senate of 56 members chosen for 6 years, and a House of Deputies of 331 members for 2 years. The chief justice of the Supreme Court, elected for 6 years, is ex-officity cice-president of the republic. Each state has its local constitution, with elective governors and legislatures. The national language is Spanish, and the Catholic religion predominates, though all are equally protected. Education is being rapidly extended, there being 4000 public schools. Railway communication, formerly confined to a line from Vera Cruz to the City of Mexico, 263 miles, is becoming more general. There are about 16,872 miles of telegraph. The chief communication is by the highways between principal cities, on which many lines of stages are constantly plying. The country is rich in agriculture and mineral wealth, vast table-lands, varying from 3000 to 5000 feet in elevation, producing almost every variety of grain and vegetables, while in the in elevation, producing almost every variety of grain and vegetables, while in the warmer regions oranges and other tropical fruits grow profusely. Coffee and cotton are largely cultivated. The northern states of Mexico are full of vast herds of cattle and largely cultivated. The northern states of Mexico are full of vast herds of cattle and sheep. Manufactures are poorly developed, but commerce, though much impeded by political turbulence and restrictive laws, is on the increase. The imports amount to a mean annual value of \$30,271,000 and the exports \$31,875,000, more than one-third of which go to Great Britain; but the large increase of commerce springs mainly from smuggling, which is directly festered by exorbitant duties on imports, practically amounting to prohibition. The country being almost destitute on navigable rivers, the rates of carriage are enormous, and must so continue until the country can be traversed with competing lines of railway of which 2219 miles were open in 1882.

The revenue for the fiscal year 1882 was \$55,640,000 of which \$12,500,000 was from customs duties; the expenditure was \$55,160,000 or more than one-third of which was for

customs duties; the expenditure was \$35,160,000 more than one-third of which was for the army. The public debt is variously stated at from \$144,700,000 to \$395,500,000; but the Mexican Government claims that its European debt is annulled by the part taken by England, France and Spain in imposing the Maximilian dynasty upon the republic in 1861-62.

The army comprises 24,830 men, the navy only 4 insignificant gunboats. Capital, Mexico, built in 1521, on Lake Tezcoco, 7435 feet above the sea level; population about 250,000.

Netherlands.

Netherlands, a kingdom of Western Europe; area, 12,727 square miles; population, 1880, 4,060,580 (by census), nearly all natives of Holland. Revenue, 1882, \$44,621,872; expenditure, \$51,715,680; public debt, 1833, \$376,908,500. Army in 1880, 65,113 men; navy, 1880, 115 vessels, 503 guns and 5,197 men. Imports, 1876, \$66,900,120; exports, \$249,865,000. Railways in 1879, 1,390 miles, more than half managed by the State; telegraphs, 2,196 miles. Post-offices, 1,300; telers carried in 1881, 49,609,083; journals, 26,646,830.

Nicaragua.

Nicaragus, one of the five republics of Central America—area, 58,000 square miles; population, 300,000 (estimated), one-half of whom are Indians—is in large part covered with great ferests, furnishing the finest mahogany, reseweed, and dye-weeds. The

country has long been distracted by internal dissensions; it is governed by a president elected for 4 years, a cabinet of 4 ministers, a senate of 10 members, and an assembly of 11 representatives. The revenue amounted in 1882 to \$1,624,160, and the expenditure rather more, chiefly for the army and public debt of \$1,122,274. The exports amounted to \$2,298,510, and the imports to \$1,760,205. The principal exports were comes, elastic gum, and gold and sliver buillon.

Paraguay.

Paraguay, an inland republic of South America—area 91,980 square miles, population in 1876, 293,844—is a country without cities and almost without civilization. The language spoken is chiefly that of the Indians mixed with a little Spanish. The country achieved independence in 1811, and was ruled by the dictator, Dr. Francia, for 29 years, during which no foreigners were allowed to enter or leave Paraguay. Since 1870 the government, though nominally republican, has been under the control of Brazil. The country is hopelessly insolvent, owing \$236,000,000 to Brazil and the other allies as a legacy of the war, \$9,000,000 to Great Britain, and \$2,100,000 domestic debt, amounting altogether to more than the total value of the country, real and personal. Revenue in 1862, \$450,000; expenses, \$313,429, besides interest and army. The imports in 1882, \$1,278,000, and the experts \$1,812,000. The army embraces 2,000 men, mostly now discharged to relieve the treasury of expense. The only railway in Paraguay is one of 45 miles, and the only telegraph is of the same length.

Peru.

Peru, a republic on the western coast of South America, (area 432,297 square miles; population in 1876, 3,050,000.) is governed, under a constitution adopted in 1858, by a President chosen for 4 years, a Sonate of 44, and a House of Representatives of 110 members. The revenue for 1879 was \$38,000,000, about one-ninth of which was from customs, the expenditures \$54,600,000; the public debt was \$281,840,854, the interest on the foreign debt being in default. The revenue is chiefly derived from the sale of guano and nitrate of soda. The importations of 1879 were \$27,000,000, and the experts \$45,000,000. The premium on specie is 62 per cent., and the domestic debt sells at 50 cents on the dollar.

The army consists of 4,670 men, besides 1,000 gendarmes and 1,200 vigilantes; during the war with Chili, lasting from 1879 to 1881, Peru put about 16,000 men in the field; the navy consisted of 18 steam vessels, well armed and equipped, of 3,386 horse power, and 66 guns, among which were seven ironclads and rams which were captured by the Chilians. The merchant marine in 1876 had 147 salling ships and 8 steamers. In 1879 there were 1,750 completed miles of railway and 600 more in construction, Peru having gone into the most extensive railroad building in proportion to its inhabitants of any country. Silver is largely mined, the annual product being from 3 to 4 million dollars, and coinage is free and unlimited. Peru has a fertile soil, producing cotton, sugar, grapes, and clives, while the forests abound in the cinchona-tree, which yields the precious Peruvian bark, or quinine.

Capital, Lima; population in 1876, 101,488.

Portugal.

Portugal, a kingdom of Western Europe; area, 34,995 square miles; population 1878, 4,348,551. The legislative power is in a Cortes with a Chamber of 100 peers, appointed for life by the king, and a Chamber of Deputies 149, elected by the people. Revenue 1882, \$36,250,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$39,046,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$39,046,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$39,046,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$39,046,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$392,775,000. Imports in 1882, \$392,046,000; expenditure, \$37,375,000; public debt 1882, \$392,775,000. Imports in 1882, \$392,775,000; public spenditure, \$37,375,000; public spenditure, \$37,375,000; public spenditure, \$37,375,000; public spenditure, \$392,775,000. Imports in 1882, \$392,775,000; public spenditure, \$392,775,000. Imports in 1882, \$392,775,000; public spenditure, \$392,775,000

Russia.

Russia, an empire of Eastern Europe and Western Asia; total area, 3,138,541 square miles; population, 23,330,864. Revenue, 1882, \$623,689,565; expenditure, \$634,283,961; public debt, 1882, \$3,354,612,569, since which loans and paper to the amount of \$340.000,000 have been issued. The cost of the war in 1877.78 with Turkey and her allies was stated officially in June, 1878, at 1,060 millions. The army in 1881 embraced 974.771 men; navy, 389 men-of-war with 561 guns. Imports, 1882, \$647,861,160; exports, 3643, 997,930. Railways in 1882, 15,778; telegraphs, 69,412 miles. Post-offices, 4,521; letter carried, 96,330,392; postal cards, 5,685,709; journals, 92,502,526 in 1881. Amount of paper money (irredeemable), was in 1879, 860 millions, which is depreciated about 30 per cent.

Salvador.

Salvador, (cometimes called San Salvador, the name of its capital city.) is the smallest of the five Central American republics; area, 7.226 square miles; population in 1878, 482,422. It is governed by a President elected for four years, a ministry of five members, and a Congress of 12 Senators and 24 Deputies, elected for 2 years. Suffrage is aniversal, except for servants and persons without legal occupation. Education, though

5 3 5 3 4 3 6 5 Lab

not general, is in advance of other Central American States; the Roman Catholic religion is recognized, but others protected. The army has 1,00 men. Revence, 18,8,400,(00, expenditure, 28,375,000; national debt. 82,478,856; imports in 181,82,705,410; exports, \$4,932,436, nearly one-half of which was indigo, and one-third coffee. About one-half the commerce of Salvador is with Great Britain.

Santo Domingo.

Santo Domingo, a republic of the West Indies, forms the larger portion of the island of Haitl, lying east of the republic of that name; area, 10,191 square miles; population in 1876, 250,000 (estimated,) principally mixed Spanlards, Indians and negroes. The national language is Spanish, rand the established religion Roman Catholic. The government is vested in a President elected for six years, who appoints a Council of four ministers, a Senate of 9 members also chosen for six years, and a House of 15 members. Revenue in 1883, \$1,500,000; expenditure, \$1,381,000; foreign debt contracted in London in 1899, \$3,780,000, which was repudiated in 1873. Imports, \$1,761,361; exports, \$1,691,776, chiefly tobacco and sugar. The soil is of extraordinary fertility, the climate soft and inviting, and much more salubrious than any other part of the West Indies. Civilization is extremely backward, and public education neglected. There are literally no good roads on the island, transportation being almost wholly on the backs of horses no good roads on the island, transportation being almost wholly on the backs of horses and mules. The army consists or 4,0.0 men, and the navy of 5 small vessels, with 44 guns. The capital, Santo Domingo, has about 6,000 inhabitants.

Spain.

Spain a kingdom of Western Europe; area, 193.171 square miles; population 1877, 16,233.233. The legislative power is in the Cortes, a Senate, and a Chamber of Deputics elected for 5 years by indirect suffrage. Revenue, 1881, \$157,7:1.8.5; expenditure, \$156,871.415; public debt; 1890, \$2,504,748,870; imports, 1881, \$19.2.3,845; exports, \$198,272.475; army in peace, 90,000 men; navy, 139 vessels and 552 guns. Railways, 1879, 4,203 miles; telegraphs, 8,190 miles; lost offices, 2,655; letters carried, 1881, 82,225,888.

Sweden and Norway.

Sweden and Norway, a kingdom of Northwestern Europe; united under one dynasty. Sweden 170.927 square miles: population, 1881, 4,65,668; revenue, \$21,694,790; expenditure, \$21,694,890; public debt, 1882, \$66,372,410; army, 41,480 men; navy, 42 steamers and 97 small vessels, with 218 guns. Imports, 1880, \$79,183,640; exports, 566,260,(42). Nearly one-half the commerce is with Great Britain. Railways, 3.93 miles, one-third operated by the State; telegraphs, 18,421 miles; post-offices, 1,830; letters in 1881,

operated by the 242.7, 11.145,670; 25.51,519,121. Norway, 123.283 square miles; population, 1876, 1,836.900. Revenue, 1882, \$11,145,670; expenditure, \$10,640,600; public debt, 1882, \$29,491,710; imports, 1880, \$46,199,10, exports, \$33,861,620; army, 18,750 men: navy in 1881, 20 steamers and 88 small vessels, with 164 guns. Rallways, 972 miles; telegraphs, 9,968 miles, nearly all operated by the government. Post-offices in 1881, 938; letters carried, 9,567,844; journals, 11,738,454.

Switzerland.

Switzerland, a republic of Central Europe; area, 15 9.8 square miles; population, 1889, 2831,787, (census.) By the federal constitution of 1874, the legislative body consists of a national council of 141 members, or one to every 20,000 inhabitants, elected for three years; and of a council of states of 44 members, two for each canton. The executive power is in a federal council, chosen for three years by the federal assembly (National Council and Council of States United) and in a President of the Swiss Confederation, elected for one year by the federal assembly from the members of the federal council, elected for one year by the federal assembly from the members of the federal council Revenue, 1881, \$8.385,800; expenditure, \$8.458,800; debt, \$6,120,770. Army, (all men between 21 and 32,) 118,440, besides the Landwehr, comprising all between 28 and 44, 91,785 in 1883. The commerce of Switzerland is not officially reported in money values. Railways, 1,775 miles; telegraphs,4,020 miles. Post-offices, 2,874; letters carried, 49,73,039; journals, 51,637,975.

Turkey.

Turkey, a monarchy of Southern Europe and Western Asia: area, 638,110 square miles: population in Europe, 8,866,000; in Asia, 16,629,980 (estimated) in 1879. The government is a constitutional monarchy since 1876, the Sultan being the irresponsible sovereign, convoking and dissolving the General Assembly at his pleasure. The ministers are responsible to the Chamber of Deputies; the senate are nominated for life by the Sultan, and the deputies elected by secret ballot, one to every 150,000 males.

The financial affairs of Turkey after the long war are greetly involved, the revenue being less than \$73,000,000 and the expenditures exceeding \$125,000,000. Public debt amounted in 1881 to \$53,186,170. No official statistics regarding commerce exist. Imports are estimated at 167,000,000, and exports at \$99,000,000 annually. Army (compulsory service for 10 years), 380,000 men in time of peace: navy. 116 steam vessels. 50

pulsory service for 10 years), 350,000 men in time of peace; navy, 116 stessail vessels, and 1600 guns. Railways, 949 miles; telegraphs, 15,647 miles. 116 steam vessels, 50

Uruguay.

Uruguay, a republic of Scuth America—area, 72,151 square miles, population, 1877, 447,00) (estimated)—is governed by a President, a ministry of 4 cabinet officers, and a legislature composed of 13 Senators and 40 Representatives. The revenue in 1:81 was \$7,988,818, three-fourths of which was from customs duties; the expenditures \$9,004,247, newly half of which was for the army and navy. The public debt in 1879 was 155.835,000; paper money to the amount of \$6,000,000 was no longer current in commerce. though received by the government. Payment of interest on the debt has been lately

The imports in 1881 were \$17,918,884, and the exports \$20,229,512, of which 6 millions

was hides.

The army consists of 2,261 men. 275 miles of railway are in operation, and 730 miles of telegraph. There are 144 post-offices; letters malled in 1877, 1,632,576. Capital, Montevideo; population, 1877, 91,167. About half the property of the republic belongs to foreigners, principally Spaniards, Italians, and Brazilians.

Venezuela.

Venezuela (United States of), a republic formed after the dissolution of the old republic of Colombia, dates from the constitution of 1864. It has 431,119 square miles, and 1,784,197 inhabitants in 1873. The confederation consists of 2) states, besides the federal district, each having its own distinct government, and electing delegates to the Congress, which meets annually at Caracas, the capital city, of 48,897 inhabitants. The President is elected for two years.

The revenue for 1882 was \$6,432 500, four-fifths of which came from customs and toninge dudes; the expenditure, \$6,521,300. The public debt in 1881 was \$47,809.99), payment of interest on which was resumed in 1875. The imports were \$14,800,000 in 1876, and the exports \$11,300,000, chiefly coffee and coons. The only railway, 70 miles icng, was opened in 1877. The army consists of 2,240 men.

PROPORTION OF CHECKS TO CURRENCY, &c., IN BUSINESS EXCHANGES.

Receipts of Coin, Currency, Checks and Drafts, &c., of the National Eanks.

From the Report of the Comptroller of the Currency, December, 1881.

Table of total receipts of the national banks in New York City, in other reserve cities, and of the banks elsewhere in the United States, on June 30, 1881, with the percentages thereto of gold coin, silver coin, paper currency, and of checks, drafts, ac.

^{*}The figures before the names of the Associate Justices indicate the order of their appointment. The numbers following refer to the same numbers in the first column, and show the vacancy filled by each appointment.

[†] Resigned.

[!] Presided one term of the Court; appointment not confirmed by the Senate.

iThe Supreme Court, at its first session in 1790, consisted of a Chief-Justice and five Associates. The number of Associate-Justices was increased to six in 1837 by the appointment of Thomas Todd; increased to eight in 1837 by the appointments of John Catron and John McKinley; increased to nine in 1863 by the appointment of Stephen J. Field; decreased to eight on the death of John Catron in 1865; decreased to seven on the death of James M. Wayne, in 1867; and again increased to eight in 1873.

Both {	lstSept. 2dDec. 8dDec.	4, 1837—Oct. 16, 1837 4, 1837—July 9, 1838 3, 1838—March 3, 1839	. F 4, 1882-March 4, 1881

Norm.—To determine the years covered by a given Congress, double the number of the Congress, and add the product to 1789; the result will be the year in which the Congress closed. Thus, the 25th Congress = 70 + 1789 = 1859, that being the year which terminated the 35th Congress, on the 4th of March. To find the number of a Congress sitting in any given year, subtract 178) from the year; if two result is an even number, half that number will give the Congress, of which the year in question will be the closing year. If the result is an odd number, ald one to it, and half the result will give the Congress, of which the year in question will be the first year.

APPORTIONMENT OF REPRESENTATIVES IN CONGRESS, AND RATIO OF REPRESENTATION BY THE CONSTITUTION AND AT EACH CENSUS.

Note.—The Salaries of Internal Revenue Collectors are graduated annually in proportion to the amount of revenue collected by each—the maximum salary being limited to \$4,500

by law.

The numbers of collection districts are those retained when the districts in various States were consolidated by law, and those hearing the intervening numbers were abolished.

By executive order Sept. 5, 1883, forty-three Internal Revenue Collectors were dispensed with, their districts being consolidated with others in the above table.

.....

UNITED STATES CONSULAR SERVICE.

The following table includes all consuls, consuls-general, and commercial agents of the United States, the amount of whose compensation reaches \$1,0.0, or upward, annually. By the statutes of the Unite I States the salaried consultates are divided into seven classes, besides other subdivisions, with specific fixed salaries for each, as follows:

Five consulates at	1 000	Nincteen con	sulates	at	3,09
Three " at 50		Nineteen	**	at	2.500
One consulate at 4.5		Thirty-six	66	at	2,030
Five consulates at 4.6	00	Sixty		at	
Eight " at 3,5		Twenty-six	••	at	1,000

By law, all consuls receiving a fixed salary are required to pay into the Treasury, without reduction, all fees received by virtue of their offices. At some other consulates and consular agencies the fees collected form the sole compensation of the incumbent, which, however, is limited in the case of consular agents to a maximum of \$1,000; and such agents are allowed to transact business. The compensation of the feed consuls is limited to \$2,500. If the fees exceed that sum, such consuls can pay clerk-hire from the fees received at the consulate when specially authorized, but not otherwise. The column of fees shows the amount of fees received at each consulate and agency from which returns have been made for the fiscal year ending June 30, 1883.

Corrected at the Department of State, December, 1983.

THE ARMY OF THE UNITED STATES.

[Surrmarized from the Annual Report of the General of the Army, October, 1883.]

The Army of the United States on the 27th of October, 1882, consisted of the fellowing forces, in officers and men:

		Officers.	Enlisted Men.
Ten caval	ry regiments	429	6.811
Five artil	lery regiments	280	2,410
Twenty-fi	ive infantry regiments	861	10.556
Engineer	battalion, recruiting parties, ordnance depart- ospital service, Indian scouts, West Point, Sig-	,	
nal deta	chment and general service	573	3,559
•	Total	2,143	23,:35

For convenience, and to fix responsibility, the country is divided into three military divisions, each with several departments, as follows;

- 1. Military division of the Missouri, commanded by Major-General John Pope, headquarters Chicago, comprehends the departments of the Missouri (Maj.-Gen. John Pope); Texas (Brig.-Gen. C. C. Augur); Dakota (Brig.-Gen. A. H. Terry); and the Platte (Brig.-Gen. O. O. Howard). There are 8 regiments of cavalry and 20 of infantry in this division,
- 2. Military division of the Atlantic, commanded by Major-General Winfield S. Hancock, headquarters New York. Includes department of the East (Maj.-Gen. Hancock); department of the South (Col. H. J. Hunt, Newport Barracks, Ky.) The department of West Point, formerly attached to this division, went out of existence as a department, September 1, 1882. This division includes 4 regiments of artillery and 2 of infantry.
- 3. Military division of the Pacific, commanded by Major-General John M. Schöfield, headquarters San Francisco. Includes departments of California (Maj.-Gen. J. M. Schofield); the Columbia (Brig.-Gen. Nelson A. Miles); Arizona (Brig.-Gen. George Crook); comprises 1 regiment of artillery, 3 of cavalry and 4 of infantry.

The maximum military force allowed under existing laws is 2,155 commissioned officers and 25,000 enlisted men. The Report of the General of the Army exhibits the actual number in service as 2,143 officers and 23,335 enlisted men, October 21, 1883. The following table exhibits the number in each rank of the army:

- 1. COMMISSIONED OFFICERS: Colonels, 66; lieutenant-colonels, 85; majors, 243; captains, 603; adjutants, 40; regimental quarter-masters, 40; first lieutenants, 563; second lieutenants, 433; chaplains, 84; storekeepers, 25; total, 2,143.
- 2. The Enlisted Man embrace 39 sergeant-majors, 40 quarter-master sergeants, 638 musicians, 196 trumpeters, 10 saddler-sergeants, 114 ordnance-sergeants, 146 hospital stewards, 134 commissary-sergeants, 424 first sergeants, 2,107 sergeants, 1,647 corporals, 225 farriers, 82 artificers, 106 saddlers, 75 wagoners, and 17,350 privates; total, 23,335. Besides these, there are employed in the Signal Corps, 425 non-commissioned officers and privates; Military Academy, 7 professors, 279 cadets, 204 enlisted men; total, 508.

The number of retired army officers is 424; number of privates discharged during the fiscal year 1883, 5,950; number died during same period, 221; number deserted, 8,578; number enlisted and re-enlisted, 8,998.

^{*}The maximum pay of colonels is limited to \$4,500, and of lieutenant-colonels to \$4,000.

The law provides for the retirement from active service of any commissioned officer who has served 30 years as such, on his own application, at the discretion of the President; or for placing on the retired list, unconditionally, after 40 years service, any officer applying to be retired: or, if 45 years of actual service, or 62 years of age is reached, an officer may be retired at the discretion of the President.

The number of officers on the retired list is limited to 400 by law. The pay is fixed at 75 per cent. of the pay allotted to the rank of officers in active service at the time of retirement.

QUARTERS, FUEL AND FORAGE ALLOWED TO ARMY OFFICERS.

By Act of June 18, 1878, all allowance or commutation for fuel was prohibited, but wood is furnished at \$3 per cord, out of the pay of officers. Forage is furnished only in kind, and only to officers actually in the field or west of the Mississippi, on the basis of the horses for the General of the Army, four for the Lieutenant-General, three each for a major or a brigadier-general, and two each for a colonel, lieutenant-colonel, major, mounted captain or lieutenant, adjutant and regimental quartermaster. Quarters are furnished on the following basis: General, (commutation for quarters,) \$125 per month; Lieutenant-General, \$100 per month; major-general, six rooms; brigadier-general or colonel, five rooms; lieutenant-colonel or major, four rooms; captain or chaplain, three rooms; and first or second lieutenant, two rooms—all of which may be commuted at \$12 per room per month.

NOTE.—The law provides that no allowances shall be made to officers in addition to their pay, except quarters and forage furnished in kind.

Mileage at the rate of eight cents per mile is allowed for travel under orders.

The pay of cadets at the U.S. Military Academy, West Point, was fixed at \$540 per annum, by Act of Aug. 7th, 1876, instead of \$500 and one ration per diem, (equivalent to \$609.50) by former laws.

The pay of private soldiers runs from \$156, (\$13 a month and rations,) for first two years, to \$21 a month and rations, after twenty years service.

The following is a list of generals who have commanded the army since 1?78, with the dates of command as far as can be escertained from the official records:

Major-General George Washington, June 15, 1775, to December 23, 1733.

Major-General Henry Knox, December 23, 1783, to June 20, 1784.

Licutemant-Colonel Josiah Harmer, general-in-chief by brevet, September, 1788, to March, 1791.

March. 1791.
Major-General Arthur St. Clair, March 4, 1791, to March, 1792.
Major-General Authony Wayne, April 11, 1792, to December 15, 1796.
Major-General James Wilkinson, December 15, 1798, to July, 1798.
Li utena: ti-General George Washington, July 8, 1798, to July 1798.
Major-General James Wilkinson, June, 1801, to January, 1812.
Major-General Henry Dearborn, January 27, 1812, to June, 1815.
Major-General Jacob Frown, June, 1815, to February 21, 1888.
Major-General Alexander Macomb, May 24, 1828, to June, 1841.
Major-General Winfield Scott (brevet lieutenant-general), June, 1841, to Novemri 1, 1861.

ber 1, 1861.
Major-General George B. McClellan, November 1, 1861, to March 11, 1862.
Major-General Henry W. Halleck, July 11, 1862, to March 12, 1864.
Lieutenant-General Clysses S. Grant, March 12, 1864, to July 25, 1866, and as

General to March-4, 1869.

General William T. Sherman, March 4, 1969, to November 1, 1883. Lieutenant-General Philip H. Sheridan, since November 1, 1883.

Statistics of the United States Army, 1789-1879.

The following table exhibits the strength of the regular army of the United States, from 17.0 to 1870, as fixed by acts of Congress. The figures are for the aggregate of officers and men:

UNITED STATES MILITARY ACADEMY.

The United States Military Academy at West Point was founded by act of March 16, 1802, constituting the corps of engineers of the army a military academy with fifty students or cadets. who were to receive instruction under the senior cinerer officer as superintendent. Later acts established professorships of mathematics, engineering, philosophy, etc., and made the academy a military body, subject to the rules and articles of war. In 1815, a permanent superintendent was appointed, and a year later an annual board of visitors was provided for, to be named by the President, the Speaker of the House, and the President of the Senate. In 1843 the present system of the appointment of cadets was instituted, which assigns one cadet to each Congressional district and Territory in the Union, to be named by the Representative in Congress for the time being, and ten appointments at large, specially conferred by the President of the United States. The number of students is thus limited to 312. A large proportion of those appointed fail to pass the examination, and many others to complete the course, the proportion being stated at fully one-half hitherto. The course of instruction requires four years, and is largely mathematical and professional. The discipline is very strict, even more so than in the army, and the enforcement of penalties for offences is inflexible rather than severe. The whole number of graduates from 1802 to 1877 was about 2,70), of whom 1,200 are deceased and about 1,500 living. Of those surviving, 800 are still in the army, and about 700 out of service.

Appointees to the Military Academy must be between 17 and 22 years of age, at least five feet in height, and free from infarmity, and able to pass a careful examination in various branches of knowledge. Each cadet admitted must bind himself to serve the United States eight years from the time of admission to the academy. The pay of cadets, formerly fifty dollars per month and rations, was fixed at 3349 per year, with no allowance for rations, by the set of 1876. The aggregate amount of money appropriated by the United States for the Military Academy from 1802 to 1877 inclusive, was \$11,386,128, being an a with fifty students or cadets, who were to receive instruction under the senior eigeneer officer as superintendent. Later acts established professorships of mathematical actions and the senior of th

THE NAVY OF THE UNITED STATES.

[Condensed from the Navy Register of 1883, and the Annual Report of the Secretary of the Navy, December, 1883.1

There were in the service in 1883, 45 naval steam vessels, all screw propellers except six, besides 14 wooden sailing vessels, 19 iron-elad vessels, 2 torpedo rams and 16 tugs; total 93, of which about 52 were in efficient service. The number of guns is 575.

The active list of the Navy is composed of 1 admiral, 1 vice-admiral, 7 rearadmirals, 21 commodores, 46 captains, 87 commanders, 78 lieutenant-commanders, 272 lieutenants, 94 lieutenants junior grade, 97 ensigns, 103 ensigns junior grade, 119 naval cadets (who have passed the four years academic course, and are performing two years service at sea before final graduation,) and 190 naval cadets on probation at the Naval Academy, all of whom are officers of the line.

Of the staff there are 1 surgeon-general, 15 medical directors, 15 medical inspectors, 50 surgeons, 79 passed assistant surgeons, 9 assistant surgeons, 1 paymastergeneral, 13 pay directors, 13 pay inspectors, 49 paymasters, 30 passed assistant paymasters, 20 assistant paymasters, 1 engineer-in-chief, 70 chief engineers, 94 passed assistant engineers, 78 assistant engineers, 24 chaplains, 11 professors of mathematics, 1 secretary for the admiral and 1 for the vice-admiral, 1 chief constructor, 11 naval constructors, 9 assistant constructors, and 10 civil engineers.

The warrant officers consist of 50 boatswains, 48 gunners, 53 carpenters, 37 sailmakers, and 38 mates.

The retired list is composed of officers of the line, as follows: 43 rear-admirals, 20 commodores, 11 captains, 12 commanders, 16 lieutenant-commanders, 16 lieutenants, 11 lieutenants junior grade, 16 masters, 6 ensigns, 1 ensign junior grade. Staff officers, viz: 21 medical directors, 2 medical inspectors, 4 surgeons, 5 passed assistant surgeons, 7 assistant surgeons, 10 pay directors, 2 pay inspectors, 4 paymasters, 2 passed assistant paymasters, 1 assistant paymaster, 12 chief engineers, 20 passed assistant engineers, 26 assistant engineers, 1 naval constructor, 8 chaplains, and 6 professors of mathematics. Warrant officers, viz: 13 boatswains, 10 gunners, 9 carpenters, and 7 salimakers.

The active list is therefore composed of 1,116 officers of the line, 606 officers of the staff, and 226 warrant officers; total, 1,648 officers of all grades.

The retired list is composed of 152 officers of the line, 131 officers of the staff, and

The retired list is composed of the onicers of the line, and onicers of the stan, and 9 warrant officers; total, 322.

There were (July, 1883.) in the service, provided for by the Navy appropriation act for the fiscal year 1884. 7,500 collisted men, and 750 boys. The marine corps consists of 89 commissioned officers, 372 non-commissioned officers, 31 musicians, 96 drummers and fifers, and 1,500 enlisted men; total, 2,028.

THE UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

The United States Naval Academy was opened October 10, 1845, and the credit of its foundation is attributed to Hon. George Bancroft, then Secretary of the Navy, under President Polk. The course of instruction, designed to train midshipmen for the Navy, at first occupied five years, of which three were passed at sea. Various changes have been made in the course of instruction, which was made seven years in 1850, four years in 1851, and six years (the last two of which are spent at Sea,) March 3, 1873, where it now remains. The Naval Academy, first located at Annapolis, Maryland, was removed to Newport, R. I., in May, 1861, but re-established at Annapolis in September, 1865, where it now is, occupying lands formerly known as Fort Severn. The Academy is under the direct care and supervision of the Navy Department. There are to be allowed in the Academy one naval cadet for every member or delegate to the House of Representatives, appointed at his nomination, one for the District of Columbia, and ten appointed at large by the President. The number of appointments which can be made is limited by law to twenty-five each year, named by the Secretary of the Navy after competitive examinations, the calets being from 14 to 18 years of age. The successful candidates become students of the Academy and receive the pay of navel cadets—2500 per annum. Cadets who fraduate are appointments cannot be made in excess of vacancies, and graduates who receive no appointments cannot be made in excess of vacancies, and graduates who receive no appointments cannot be made in excess of vacancies, and graduates who receive no appointments cannot be made in excess of vacancies, and graduates who receive no appointments, see an honorable disoharge with one year's sea pay. The course of instruction is thorough, involving a close pursuit of mathematics, steam engineering, physics, mechanics, seamanship, ordinance, history, law, etc. The whole number of students in 1883 was 190. The graduating class of 1883 numbered in members. u members.

JUDICIARY SUPREME COURT .- Chief Justice, Robert C. Brickell; Associate Justices, Goo. W. Stone, H. M. Somerville. Term, 6 years. Elected by the people. Salary, \$3,000 each. Clerk, J. W. A. Sanford.

Amount of State Debt, Oct. 1st, 1983: funded, \$9,164,600; unfunded, \$2,999,423; interest at 3 to 6 per cent. The State adjusted its debt in 1876 by issuing 30 year bonds bearing 2 per cent. interest until 1881, then 3 per cent. until 1886, then 4 per cent. until 1896, and then 5 per cent. for the last 10 years, till 1996, thus retiring the old bonds for their face without any allowance for past due coupons.

State Receipts for last year, ending October 1, 1883, \$1,129,976.11. State Expenditures for year ending October 1, 1883, \$1,112,148.02. Amount raised by taxation last year, \$906,807.54.

Amount of taxable property as assessed Real, \$91,740,596; personal, \$64,285,883.

Rate of State tax, 65 cents on the \$100. A Poll tax of \$1.50 is levied on males from 21 to 45, for the use of the School fund.

STATE OF ARKANSAS.—Little Rock.

JUDICIARY SUPREME COURT.—Chief Justice, E. H. English, 8 years from Oct. 1880.

Associate Justices, W. W. Smith, 8 years from Oct., 1882; John R. Eakin, 8 years from Plet., 1878, Elected by the people. Salary, \$3,000 each. Clerk, Luke E. Barber.

Amount of State Debt, Oct. 1, 1883: "Runded, \$2,454,000; unfunded, \$2,689,000 (being amount of interest due on foregoing bonded debt); total, \$5,143,000.

General Statement of State Bonds issued: \$22,000 thirty year State Bank 5 per cent; \$138,000 thirty-year Retails Bank, 6 per cent; \$763,000 thirty-year Funding, 1869, 6 per cent; \$625,000 thirty-year Funding, 1870, 6 per cent; Six per cent. Funding Bonds of 1874 and 1875. \$380,000

NOTE.—The above is exclusive of \$1,986,773 Levee Bonds, \$5,380,000 Raliroad Aid Bonds.

Note.—The above is exclusive of \$1,986,773 Levee Bonds, \$5,350,000 Rallroad Aid Bonds, and of \$3,694.614 other disputed debt. The Supreme Court of Arkansas in 1878 decided that all the Levee Bonds are unconstitutional and invalid. All the Railroad Aid Bonds have been declared by the Supreme Court to have been illegally issued.

State Receipts for year ending Oct. 1, 1883, \$830,000.
State Exponditures for year ending Oct. 1, 1883, \$590,000.
Amount raised by taxation, \$750,000.
Amount of taxable property as assessed, 1883: Real, \$75,000,000; personal, \$48,000,000; total, \$123,000,000.

Rate of State tax, 7 mills on the dollar.

STATE OF DELAWARE.—Dover.

STATE OFFICERS.	NAME.	Term of Office.		began.	Term	onds.	Salary.
Governor	Wm. F. Causey John M. Houston Jesse Long	4 yrs. 2 yrs.	Jan. 10 Jan. 2 Jan. 2	6, 1883. 1, 1883. 1, 183.	Jan. 1 Jan. 2 Jan. 2	6, 1887. 1, 1885. 1, 1885.	1,000 1,450 700
Adjutant-General Supt. of Pub. Instruction. Attorney-General State Librarian	Thos. N. Williams George Gray	1 yr. 5 yrs.	Oct.	9, 1879.	Oct.	9, 1884	2,000

JUDICIARY, SUPREME COURT.—Chief Justice, Jos. P. Comegys. Associate Justices, L. E. Wales, John W. Houston, Edw. Wootton. Chancellor, Williard Saulsbury. Term, for

waters, John W. Houston, Edw. Wootton. Chancetor, Whitard Sauisbury. Term, 14r life. Appointed by Gevernor. Salary, Chief Justice and Chancelor, \$2,500 each; Associate Justices, \$2,000. Clerk, John D. Burton. Amount of State Debt, Jan. 1, 1883, \$781,750, all funded at 4 per cent. The State holds interest-paying securities (railroad, etc.) to the amount of \$1,168,790, and is actually out of debt. The annual receipts were \$141,238 in 1882, and the annual expenditures \$94,259, at the date of the last Treasurer's report, Jan., 1883. Of the tax receipts, no less than \$64,150 was from licenses, \$40,428 from tax on railroads and passengers, and nothing from taxes on real and personal property, in the whole State. It results that Delaware is the least taxed community in the Union, so far as the expenses of State government are concerned. There is no State valuation of property for taxation.

Electors must have paid a County tax, assessed at least 6 months before election, to

entitle them to suffrage.

STATE OF FLORIDA.—Tallahassee.

JUDICIARY, SUPREME COURT.—Clief Justice, W. N. H. Smith; Associa'e Justice:, Thos. S. Ashe. A. S. Merrimon; term, 8 years; elected by the people; salary, \$2,500 each, Clerk, William H. Bag ey.
Amount of State Debt, Nov. 1, 1883; Principal. \$11,270.345; unfunded. \$4.151.700; total, \$15,422,045, exclusive of unacknowledged "Special Tax Bonds," amount \$11,-407.000

407,000.

By Funding Law of February, 1879, the sum of \$12,683,045 of the debt was recognized as valid, and ante-war bonds funded at 40 per cent. I face values, while new R. R. bonds were scaled at 25 per cent. of their face, and funding bonds of 1866 and 1869 at 15 per cent. of face value. All the new consolidated bonds run 30 years, at 4 per cent., the first coupon of 2 per cent. having been paid January 1, 1841. The sum total of new funding bonds authorized is \$3,618,511, and the amount issued up to October 1, 1883, is \$2,724,881 cancelling the sum of \$7,470,245 of the old bonds. Other bonds of the State, amounting to about \$13,000,000, are unprovided for in this compromise.

State Receipts for year ending October 1, 1882, \$768 593.49.

State Expenditures for the year ending October 1, 1882, £695,337.37.

Amount raised by taxation, 1882, \$700 000.

Amount of taxable property as assessed: Real, \$104,742,911; Personal, \$62,995,728; total, \$167,738,639.

Rate of State tax, 28 cents on \$100.

A capitation tax of 8i cents is imposed on each male, between 21 and 50 years, for support of schools and of the poor.

JUDICIARY, SUPREME COURT.—Chief Justice, J. W. Deaderick; Associates, W. F. Gooper, T. J. Freeman, Robert McFarland, Peter Turney; term of office for each, 8 years; elected by the people; salary of each, \$4.000. Amount of State Debt January 1, 1882, \$20.208,300, funded and registered. Unfunded debt (unpaid interest), \$6.336,550.

By the Compromise and Funding Act, Way 90, 1899, Tananage and Landing Act,

By the Compromise and Funding Act of May 20, 1882, Tennessee funded its "legally issued bonds," with all accrued interest thereon, at 60 per cent, of the face value, in new Wyear bonds of 1882, bearing 3 per cent. for two years, 4 per cent. next two years, 5 per cent. for next two years, and 6 per cent. for remaining 24 years. About eight millions of these compromise bonds were issued up to July, 1883. The State Legislature in interest, except the old State debt proper of \$2,118,000, for which new 6 per cent, bonds are issued at face value.

State Reccipts for year ending December 19, 1882, \$783,076.84.

State Recupts for year ending December 19, 1882, \$783,076.84. State Expenditures for same year, \$903,401.46.

Amount raised by taxation, 1882: State, \$954.002.97, of which merchants licenses paid \$106.41; tipplers' licenses, \$113,037; other privilege taxes, \$22,000, and about \$600,000 Property tax. The average value of land in Tennessee was \$6.00 per acre in 1882.

Amount of property as assessed, 1882: real, \$195.635.100; personal, \$18,183,838; total, \$212.98.13. Railway property, \$16,375.894; telegraph property, \$149,432. Bate of State Tax. 1832, 20 cents on each \$100.

A State Poll Tax of \$1.00 is levied for schools, producing in 1890, \$232,472.

JUDICIABY, SUPBEME COURT.—Chief Justice, Asa H. Willie; Associate Justices, John W. Stayton, Charles S. West. Term, 6 years. Elected by the people. Salary, \$3,500 each, Amount of State Debt, September 1, 1882, \$4,447,700. in State bonds, bearing 6 and 7 per cent. interest.

State Receipts for year 1881, \$1,962,914. State Expenditures for year, \$1,769,879.

Amount raised by taxation, \$1.396,170.

Amount of taxable property, as assessed 1883, real and personal, \$520,000,000, Rate of State tax, 30 cents on each \$100.

The State has laid the foundation for an ample school fund, by devoting to that object all the alternate sections of land reserved out of its heavy railroad grants, and also one half the public domain of the State, with all money that may come to the State from the sale of such molety.

The public domain of Texas (which alone of all the States retained control and ownership of its public lands upon admission into the Union.) still embraces more than 67,000.000 scree, or a territory larger than the entire surface of any State in the Union, except California and Nevada.

In addition to the tax of 30 cents the \$100 on property, there is levied a poll tax of \$2 on every male between 21 and 60 years, one half of which, together with the fourth of the ad valorem tax, is expended for school purposes.

Note.—In California, in 1880, five Democratic Electors for President and one Republican Elector were chosen: Judge Terry, one of the Democratic Electors at Large, running behind the ticket. The vote above given is on the Elector at Large of each party receiving the highest vote—4. c., Egerton, Republican (elected), and Wallace, Democrat. In 1880, the Greenback Electoral ticket received 3,892 votes, and there were 60 scattering.

In 1876, Cooper, Greenback Presidential Candidate, received 44 votes. In 1878, the vote on Governor stood: Perkins, Rep., 67,970; Glenn, Dem. and H. B., 47,562; White, Workingmen's ticket, 44,620: total vote, 160,152.

NOTE.—At the election of 1880, the State issue, represented in the above vote on Governor, was the payment of the State debt. The Democrate divided on two candidates, Wright, Debt-paying, in favor of payment in full, and Wilson, "Low tax" Democrat, in favor of scaling or indefinitely postponing the payment of the debt. The Republican candidate for Governor was elected through this division.

Of the 4,814 scattering votes in 1882, 4,632 were cast for Fussell, "State credit" Democratic candidate for Governor, against Bate, "Low Tax" Democratic candidate.

The Legislature of 1883-84 stands:

Total vote		8.117.679		9.21	0.970	8.41	2.605

The vote in the second column in Georgia was the Opposition or Independent vote.

NOTE.—Of the vetes cast for "all others," the Greenback party polled in 1876 81,740 votes, and in 1889, 307,308 votes. In 1882, the fusion of parties in several States prevents any trustworthy estimate of the Greenback vote.

^{2.} The Governor's vote in these States includes the Democratic and Greenback, or Fusion vote.

^{3.} The Regular and the Independent Republican vote on Governor are here combined

^{4.} The vote of the Regular Democratic and the "State Credit" Democratic candidate for Governor are combined.

The vote opposed to Ireland, Democrat, in Texas, was cast for Jones, Independent and Greenback candidate, who received nearly the whole opposition vote.

The vote classed in the second column in Virginia is the Coalition or Readjuster and Republican vote combined.

NOTE.—Numerous variations in the Presidential vote are found in the different tables published. One principal source of discrepancy is in taking the vote for different Ricctors, of either party, as representing the vote for President. As the votes for Electors vary greatly, some tables take the highest vote cast for any one Elector; others, the highest cast for any Elector-at-large; and others still, the average vote cast for all the Electors of each party.

1. In Louisiana, two Republican Electoral tickets were voted for: the regular Republican, and the Beattle, or Grant Republican. The latter received about 9,740 votes, not returned in the first table published

2. In Maine, the Hancock Electoral ticket was styled "Fusion," containing 8 Democratic and 4 Greenback Electors. Besides this, a "Straight" Greenback Electoral ticket was voted for, with Weaver's name at the head.

3. The above vote in Nevada and Tennessee is from the State Officers. Other statements vary largely in the vote of both parties.

4. The footings in Texas are correct, as rendered to the Secretary of State, but three Counties made no return of votes for President, (Denton, Galveston and McMullen.) If these cast as many votes for Electors as for Governor, it would increase Hancock's vote in the State, 5,82), and Garfield's 1,746, and Weaver's 593.

5. These figures are the finally corrected returns in the Office of the Secretary of State. Earlier statements gave Garfield 45,567 votes, and Hancock 14,316 votes.

6. Two Democratic Electoral tickets were voted for in Virginia, the Regular or Debtpaying Hancock Ticket, and the Re-adjuster, or Mahone Hancock Ticket. Both are added together in the table.

SIGGOL TORITION IN THE REPORT.

7. Of the cattering votes, 10.305 were cast for Neal Dow, "Prohibition" candidate for President, and 767 votes for John W Phelps, "American" or Anti-secret-ablety can illate

8. The Ricetoral vote of Georgia was cast irregularly, on the 3th Wednesday of December, instead of the first Wednesday, as required by Act of Congress. In the count of the Biect rat vote, Feb. 9, 1831, Congress declared Hancock to have received 185 votes, if Georgia were counted, and 144 votes, if not counted; that in silver case, Garfield had received a majority of the votes, and was duly elected.

FULL TABLES OF PRESIDENTIAL ELECTIONS.

SUMMARY OF POPULAR AND ELECTORAL VOTES FOR PRESI-DENT AND VICE-PRESIDENT OF THE UNITED STATES, 1789-1876.

Previous to the election of 1804 each elector voted for two candidates for President; the one receiving the highest number of votes, if a majority, was declared elected President; and the next highest Vice-President.

[†] Three States out of thirteen did not vote, viz.: New York, which had not passed an electoral law; and North Carolina and Rhode Island, which had not adopted the Constitution.

[†] There having been a tie vots, the choice devolved upon the House of Representatives. A choice was made on the 36th bailot, which was as follows: Jefferson—Georgiu, Kentucky, Maryland, New Jersey, New York, North Carolina, Pennsylvania, Tennessee, Vermont, and Virginia.—16 States; Burr—Connecticut, Massachusetts, New Hampahire, and Rhode Island—4 States; Blank—Delaware and South Carolina—2 States.

^{*}No choice having been made by the Electoral College, the choice devolved upon the House of Representatives. A choice was made on the first ballot, which was as follows: Adams—Connecticut, Illinois, Kentucky, Louisiana, Maine, Maryland, Massachusetta, Missouri, New Hampshire, New York, Ohio, Rhode Island, and Vermont—13 States; Jackson—Alahama, Indiana, Mississippi, New Jersey, Pennsylvania, South Carolina, and Tennesse—7 States; Crawford—Delaware, Georgia, North Carolina, and Virginia—4 States.

[†] No candidate having received a majority of the votes of the Electoral College, the penate elected R. M. Johnson Vice-President, who received 33 votes; Francis Granger received 18.

Total Population...... 30.08 per cent. | Colored Population....... 34.67 per cent. White Population...... 29.20 44 Chinese Population..... 66.73

Note.—The inhabitants of Alaska and the Indian Territory (both unorganized as yet) are not included in the above total. The census of Alaska in 1880 showed: White, 392; Creoles (issue of intermarriages between the whites and natives), 1,883; Aleuts, 1,980; Innuits, 17,488; Indians, 8,655; total, 30,178.

The Indian Territory is estimated to contain 60,000 to 75,000 inhabitants.

The Indians included in the census in each State and Territory are those reckoned as civilized, or outside of tribal organizations. Indians not taxed are by law excluded from the census. Estimates of their numbers vary widely—from 200,000 to 360,000 (the latter as estimated in the census of 1870), while the latest census or estimate of the Indian agencies, as reported in 1881 to the Commissioner of Indian Affairs, gives 216,417 Indians, excluding Alaska. The whole population of the United States exceeds 50,500,000, including Indians and Alaska.

In the Chinese column (from want of space else where) have been reckoned 148 Japanese.

POPULATION OF THE UNITED STATES IN 1870 AND 1880.

From the Official Returns of the Tenth Census, 1880, as revised in 1882,

Norg.—In cases where counties are left blank, they have usually been consolidated with other counties, or have been organized since the date of the former census.

Icculation of the Towns and Cities of the United States having a population of 4,000 or upwards in 1880, compared with the Census of 1870.

(From the Official Returns of the Tenth Census, corrected in 1882.)

NOTE.—In previous editions of the American Almanac, the population of places having over 7,500 inhabitants in 1881 was given, including in many cases the population of entire townships exceeding that number of people. The present list embraces all cities and villages numbering 4,000 inhabitants or upwards, without regard to township boundaries, which would in many cases increase the aggregate to larger figures.

PRODUCTION AND CONSUMPTION OF BEER

The following table, (from the British Trade Journal, except as to the United States,) gives the quantity of beer, (including ale,) brewed in various countries in 1880, with the consumption per capita of population. As no account is taken of the quantity imported into or exported from each country in these figures, it is to be presumed that this element would modify the result as to certain countries.

	Number of Breweries.	Quantity Brewed.	Consumption per head.		Number of Brew- eries.	Quantity Brewed.	Con- sump- tion per head.
Belgium Great Britain. Germany Denmark United States.	26,214 23,940 240 2,741	1,050,000,000 930,000,000 30,000,000 513,192,120	32 22 12 101	Norway Austria Switzerland. Sweden France Russia	9,448 400 240 8,100	16,500,000 270,000,000 17,000,000	7% 6 5 4%

AGGREGATE OF SOME LEADING FARM PRODUCTS, 1860.

THE METRIC OR DECIMAL SYSTEM.

As applied to weights and measures, the metric system has been adopted by France, Germany, Italy, Spain, Portugal, Belgium, Netherlands, Greece, Mexico, Brazil, Peru, Chili, etc. Switzerland, Denmark, and Austria have partially adopted it, and it is legalized or permissive (not compulsory) in the United States and in Great Britain. As applied to measures of length, the standard unit is the metre, ascertained with mathematical exactness to be one ten-millionth part of a terrestrial meridian. The unit of volume (or litre) is the capacity of a cubical vessel measuring one tenth of a metre on its edges; and the unit of weight is the actual weight of distilled water which will fall such a vessel. The following tables exhibit the various designations of weights and measures under the metric system, and their equivalents in existing American or English weights and measures, as legalized by act of Congress, July 27, 1866.

MEASURES OF LENGTH.

Metric denominations	ind values.	Equivalents in denominations in use.
Myriametre Kilometre Hectometre Decametre Metre Decimetre Centimetre Millimetre	1,000 100 10 1 metre.	6.2137 miles, 0.62137 miles, or 3,280 feet, 10 inches 828 feet, 1 inch. 303.7 inches. 89.87 inches. 8.937 inches. 0.3987 inches. 0.0394 inches.

MEASURES OF CAPACITY.

THE CUSTOMS TARIFF OF GREAT BRITAIN.

No protective duties are now levied on goods imported, Customs duties being charged solely for the sake of revenue. Formerly, the articles subject to duty numbered nearly a thousand; now they are only twenty-four, the chief being tobacco, spirits, tea, and wine. The following is a complete list:

From the Statistical Abstract of the United Kingdom.

^{*} The whole quantity liable to be issued under the act of July 2, 1862, is 9.600.000 acres.

*The whole quantity liable to be issued under the act of July 2, 1862, is 9,600,000 acres.

NOTE.—Under an act of Congress approved Sept. 4, 1841, each State thereafter admitted to the Union was granted 500,000 acres of land for purposes of internal improvement; 46,080 acres (72 sections) for a State University; 32,000 acres (50 sections) for the purpose of erecting public buildings at the Capital; and 32,000 acres for a penitentiary or State prison. The same grant of 500,000 acres was extended to the States of Alabama, Arkansas, Illinois, Indiana, Louisiana, Michigan. Mississippi, and Missouri. The quantity of land thus granted is estimated at 9,000,000 acres.

By act of July 2, 1862, each State, old or new, was granted 30,000 acres of the public domain for each Senator and Representative in Congress (or land scrip to that amount) for the purpose of endowing a College of Agriculture and the Mechanic Arts in each State. Of the 9,600,000 acres estimated to be due the States under this munificent land-grant, about 8,300,000 acres have already been located.

NUMBER OF ELECTORS IN FRANCE.

In the French Republic, suffrage is practically universal, there having been inscribed on the registers of the Ministry of the Interior by an official report dated April 1, 1876, 9.948,070 legal voters, out of a population the same year 038,095,753 in Frunce. This gives 1 voter to every 4 inhabitants, nearly. In the United States, by the cenus of 1870, the ratio of legal voters to population was 1 to 44, nearly In Great Britain, where suffrage is restricted, the proportion is 1 voter to every 11 inhabitants.

FIVE YEARS LOSS BY FIRE IN THE UNITED STATES.

From the Argus, Insurance Journal, Chicago.

The yearly destruction of property by fire in this country is alarming. This loss is largely due to the national crime of incendiarism which is fostered by reckless competition among insurance companies, inadequate State laws on the subject of fire inquest, as well as the careless and hurried manner in which buildings are erected through laxity in enforcing the proper laws. The following table omits certain of the Territories, the data therefrom being imperfect. To complete the figures in certain States we are indebted to the valuable tables of the Caronicle.

BUSINESS OF THE BUEZ CANAL FROM ITS OPENING.

This great ship canal, one hundred miles in length, connects Sues, on the Red Sea, with Port Said, on the Mediterranean. It was commenced by a company, aided by large subscriptions of the governments of Egypt, France and England, in 1858, and opened November 17, 1869. It is 73 feet wide at the bottom, about 300 feet at the surface, and 35 feet in depth, easily passing the largest vessels. The controlling interest in the canal was purchased since 1871 by the British government, which now holds it. The following table exhibits the prodigious increase of business on this great work:

[From the Economiste Français, 1878-1883.]

TREASURY DEPARTMENT.

Washington, D. C., January 2, 1884.

The foregoing estimation, made by the Director of the Mint, of the value of the foreign coins above mentioned, I hereby proclaim to be the values of such coins expressed in the money of account of the United States, and to be taken in estimating the values of all foreign merchandise, made out in any of said currencies, imported on or after January 1, 1884.

CHARLES J. FOLGER

Secretary of the Treasury.

The tax on malt was repealed September 30, 1880, and duty on beer imposed in lieu of it.

[Condensed, with additious, from the Financial Review, 1877.]

TABLE FOR INVESTORS.

The following table shows the rate per cent of annual income to be realized from stocks or bonds hearing any given rate of yearly dividends or interest, from 1 to 15 per cent, when purchased at various prices from 10 to 300 per cent. This table applies equally well to both stocks and bonds, and has nothing to do, with the length of time which a bond has to run to maturity.

For example: To ascertain what rate of annual interest will be realized on a bond or stock which bears 7 per cent per annum and can be purchased at 93 (i.e., at 92 per cent of its par value, whatever the par may be, find \$2 in the column of "purchase price" and follow that line across to the column headed "7 per cent," which will show the correct figures—in the present instance, 7 to per cent.

Pur- chase Price.	8 per cent.	8.65 per cent.	4 per cent.		5 per cent.			7 ft per cent.		9 per cent.	10 per cent.	12 per cent.	15 per cent.

1872		Horace Greeley, etc	87	6,466,165	11,799.812	138.8
1876	Rutherford B. Hayes	Samuel J. Tilden, etc	38	8,412,733	1,946,568	80.1
1880	James A. Garfield	Winfield S. Hancock, etc	38	9,204,428	791,695	. 94

^{*} The Electors of six States for 1834 were chosen by the Legislatures; in 1838 they were all chosen by the people, except in South Carolina. This will explain the great increase of the popular vote at the election of 1838.

Percentage of the Total Vote Cast received by Candidates for President at each Election from 1804 to 1876.

[From The Statistician, San Francisco, 1877.]

^{*}Loans thus marked are not redeemable at any fixed period, but are of the nature of perpetual annuities.
† Loans thus marked are redeemable only by purchase of the government.
Other loans, having different years after the rate of interest, are redeemable at the last-named date.

The aggregate cost of building and repairing fences on farms during the census year 1879-80 was returned at \$77.763,473.

The total cost of farm fertilizers purchased during the census year was \$28,586,397.

The latter two items of agricultural statistics were not collected in the census of 1870, nor that of 1863.

It will be observed that the increase in number of all kinds of live stock during the ten years 1870-1880 was very large. But the aggregate value of live stock is actually somewhat less in 1880 than the valuation recorded in 1870, being \$1,525,276,457 for the latter year.

latter year.

In all comparisons of values between 1870 and 1890, it should be borne in mind that in the former year gold was at an average premium of 25.3 per cent.

From 1894, the year of its Foundation, to 1883

Norg.—It is to be understood in all cases that the discount rate against any given date was the rate charged until the next succeeding date. For example, April 20th, 1876, the Directors is and the minimum rate of discount on first-class bills at 2 per cent, which continued until May 2d, 1877, when it was raised to 3 per cent.

France. Spain*	24.4 29.7 30.2	23.8	21.6 80.3	26.1 87.2 87.4	26.1 36.8	26 2 84.9	15.9 15.1 15.4	17.7 15.8	16.6 16.5

[•] The mean annual rates for Spain are for the ten years 1861-70, those for Italy are for the ten years 1863-72.

It will be seen from the above table that the death-rate is much higher in Italy, Austria, Spain, and Prussia, than in France or England, while the mortality of the most northern countries of Europe—Denmark and Sweden—is less by ten per cent than in Great Britain, and 50 per cent lower than in Italy or Austria.

UNITED STATES POSTAL REGULATIONS.

as revised under Act of March 8d, 1888.

First Class Mail Matter.

LETTERS.—This class includes letters, postal cards, and any thing scaled or otherwise closed against inspection, or any thing containing writing not allowed as an accompaniment to printed matter, under class three.

L'astage—After October 1, 1883, 2 cents only each half ounce or fraction thereof.

On local or drop letters, at free delivery offices, 2 cents. At offices where no free delivery by carrier, 1 cent.

Prepayment by stamps invariably required.

Postal cards, 1 cent.

Registered letters, 10 cents in addition to the proper postage.

The Post-Office Department or its revenue is not by law liable for the loss of any registered mail matter.

Second Class.

REGULAR PUBLICATIONS.—This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency. Postage, 2 cents a pound or fraction thereof, prepaid by special stamps. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third class rates. Third Class.

Mail matter of the third class includes books, transient newspapers and periodicals, circulars, and other matter wholly in print, legal and commercial papers filled out in writing, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

MS. unaccompanied by proof-sheets, letter rates.

Limit of weight, 4 pounds each package, except single books—weight not

limited.

Postage, 1 cent for each 2 ounces or fractional part thereof, invariably prepaid by stamps.

Fourth Class.

Embraces merchandise and all matter not included in the 1st, 2d, or 3d class, which is not liable to injure the mail matter. Limit of weight, 4 pounds,

Postage, 1 cent each ounce or fraction thereof, prepaid.

All packages of matter of the 8d or 4th class must be so wrapped or enveloped that their contents may be examined by postmasters without destroying

the wrappers

Matter of the second, third, or fourth class containing any writing, except as here specified, or except bills and receipts for periodicals, or printed commercial papers filled out in writing, as deeds, bills, etc., will be charged with letter postage; but the sender of any book may write names or addresses therein, or on the outside, with the word "from" preceding the same, or may write briefly on any package the number and names of the articles inclosed.

Postal Money Orders.

An order may be issued for any amount, from one cent to fifty dollars, inclusive, but fractional parts of a cent cannot be included, The Fees for orders are : On orders not exceeding \$15...

..10 cents.

over \$15 and not exceeding \$30...15 over 30 " 40..20 over 40 " 50 ex

When a larger sum than fifty dollars is required, additional orders must be obtained; but no more than three orders will be issued in one day from the same post-office to the same remitter in favor of the same payee.

Free Delivery.

The free delivery of mail matter at the residences of the people desiring it is required by law in every city of 50,000 or more population, and may be established at every place containing net less than 20,000 inhabitants. The present number of free delivery offices is ninety

number of free delivery offices is ninety.

The franking privilege was abolished July 1, 1873, but the following mailmatter may be sent free by legislative saving-clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by mannetric Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Commissioner of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

All communications to Government officers, and to or from members of Congress, are required to be prepaid by stamps.
